THE COMING CONVENTION.

It is earnestly hoped that all the Chapters will be represented at the coming Convention, which promises to be one of unusual interest. The importance of meeting in these Conventions cannot be too strongly emphasized. It tends to make the different members of the Fraternity know each other, and see from each other the rank that they occupy in the different institutions, and thereby excite a spirit of rivalry among them. It is the special desire of the officers at this Convention to hear reports from the different Chapters as to the working of the new ritual. I, therefore, urge all the Chapters to make a special effort to have delegates at the approaching Convention, feeling confident from what I hear that they will be assured of a pleasant time.

ROBERT M. HUGHES,
Supreme Councillor.

NU AND HER HOME.

It may be but presumption on our part, but as we expect to enjoy the honor, so much coveted by all of our sister Chapters, that of entertaining the Convention this year, we thought that a short sketch of her and of the enterprising, growing little city of 15,000 inhabitants, situated in the Piedmont Belt of noble old South Carolina, in which her members spend nine months of each year, might be of some interest to our Brothers. An interest will cluster around Nu and Spartanburg that they had never had before, and throughout the South, all II's might very naturally ask the question, what has been the history of Nu? And where and what is Spartanburg?

Nu is just now completing her tenth year, having been organized in 1890, and we think that we can truthfully say that she is ending her first decade with flying colors. Our College is not a very wealthy one, nor is it very large, but the men who come here are the flower of Carolina's youth men who come from the best homes of a State which is known far and wide for its blue blood. What, therefore, our College lacks in quantity, it makes up in quality, and there is an atmosphere pervading our campus that cannot but be an inspiration to any young man. In such a community Nu had her first life, and from a few men, banded together by sacred, brotherly love, she has grown until we now have fourteen stalwart young fellows, all of them enthusiastic, and men whose influence is felt from center to circumference of the College. She has always had her full share of the very best of the young men who have come here, and scattered over the State are young men in business, prosperous, successful, who look back to the years with Nu as the happiest period of their lives. She has also had her full share of all the honors that are open to the students, and a public occasion never passes that some II is not there to hold up the honor of Nu, and, in holding up her's, holds up also that of all her sacred brotherhood, that we love so much. Placed in a College where there are five

other active Chapters, we of course, as members, are fully convinced that she is head and shoulders above anything, but we think that even an outsider, judging only from appearances, would be forced to the conclusion that she is as good as the best.

Spartanburg is a growing, thriving city of the upper portion of Carolina, the center of the first county of the State in manufactures, situated on a through line of railroad from the North, she enjoys all the advantages in this respect that our State can afford. We would not attempt to draw a glowing picture of Spartanburg, covering her defects, and polishing her attractions until she made the impression of a veritable paradise, but when our Brothers step off the train, they will find themselves in the midst of a plain southern city, but one enjoying many of the advantages of one much larger. We have railroad connections in all directions, one of the best hotels in the State, and while we have not the luxury of paved streets and trolley cars, still both are being put in, and a few more years will see Spartanburg able to hold her head up among any of our cities.

But it is not alone of business that she can boast. To every visitor to Spartanburg is pointed out with pride by her loyal citizens two classic towers that mark the spot, where for forty-seven years, Wofford College has sent out men to fill places of responsibility and trust, not only in this State, but also in many others, and it is an honor to be spoken of as a student of Wofford.

Within a mile of Wofford is a Female College, the peer of which is not to be found in our fair South land, and has students from all over the Southern States.

Viewing these facts, are we selfish in saying that we think Spartanburg is the very best place for our Convention? We trust not. Be that as it may, however, we extend a most hearty welcome to all our Brothers as they may come from all directions, and they will find our hearts open to receive them. We trust that the coming Convention may be above all things one that will link us closer to-

gether in the bonds of love, but also that each II, as he turns his back upon Spartanburg and Nu, will go away with a feeling in his heart for them that will last throughout life. Then, and not till then, can our Convention be called a success in the highest sense. *M. Auld.*

REV. JOSEPH RENNIE.

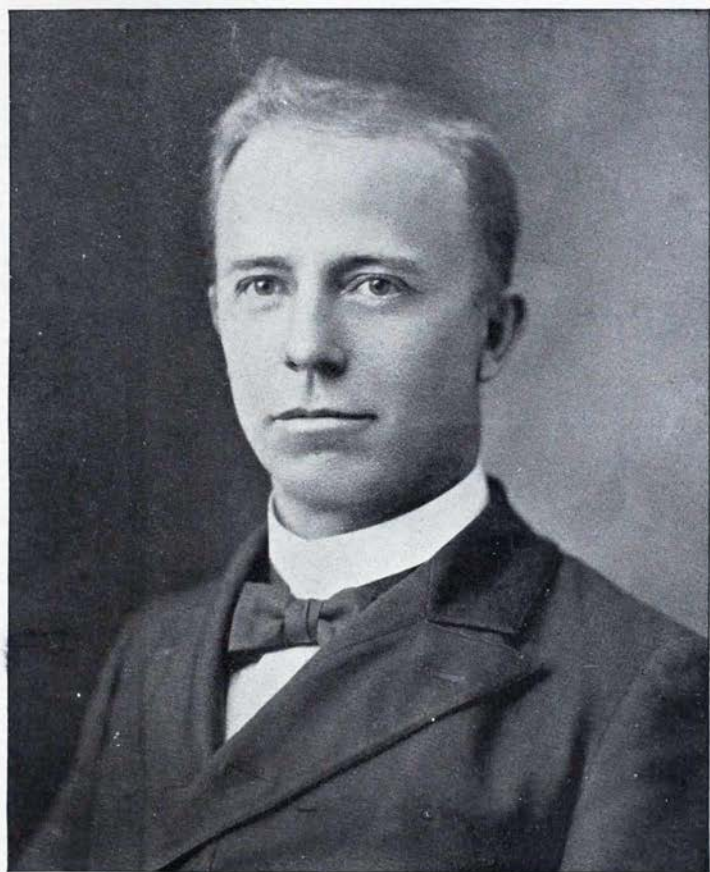

Prominent among the younger ministers of our church is the Rev. Joseph Rennie, pastor of Madison Ave. Presbyterian Church, Covington, Ky. Mr. Rennie was born July 15th, 1860, in Henrico County, Va., of Presbyterian lineage on both maternal and paternal sides of the family. His grandfather was a native of Scotland, but moved to this country and was for a long time an honored elder in the First church, Richmond. His father, Rev. J. R. Rennie, is at present pastor of the Amelia Presbyterian church.

The subject of this sketch received the usual training in the primary schools and spent four years in business. In his eighteenth year he made a profession of religion and united with the Second Presbyterian church, (Dr. Hoge's) Richmond, of which church his family had been members since the war.

Soon after uniting with the church the desire to give himself to the ministry led to a decision, and in his nineteenth year he entered Richmond College where he spent two sessions, 1880-1882. In the fall of 1882 he entered the Sophomore class at Hampden-Sidney and in the spring of 1885 graduated with the degree of A. B. Here he joined Iota Chapter and has always been a loyal and enthusiastic II. During this period he received the Junior Debater's medal from the Union Literary Society and represented his society on numerous public occasions.

In the fall of 1885 he entered Union Theological Seminary, from which he graduated in the spring of 1888.

A unanimous and hearty call from the church at Chase City, Va., which he had served the previous summer, was

REV. JOSEPH RENNIE.
IOTA.

accepted, and in June, 1888, Mr. Rennie was ordained and installed as pastor over this church, having been licensed by East Hanover Presbytery in 1887.

Mr. Rennie was married October 25th, 1888, to Miss Eugenia Goodall, daughter of Dr. Chas. Park Goodall, of Richmond, Va. Mr. Rennie has two daughters, one four and the other ten.

During his pastorate in Chase City, Mr. Rennie supplied the church at Boydton and was pastor of Ebenezer. Here he was instrumental in rebuilding the church and gathering a large congregation. But his field was so inaccessible that he was forced to give it up and give his whole time to this church in Chase City. In the meantime the church at Oxford, N. C. being without a pastor, Mr. Rennie was invited to supply that church in connection with the Chase City church. In September, 1890, he was called to the field pastorate of Oxford church. During this pastorate a beautiful new church building was erected and furnished, at a cost of nearly ten thousand dollars. In August, 1892, he accepted a call to the Stuart Robinson Memorial church of Louisville, Ky. Here he remained a little over three years, and in the fall of 1895 a call was received from the Madison Avenue Presbyterian Church of Covington, Ky., his present pastorate. This charge is a large one, the church having about five hundred members and ranking first in Ebenezer Presbytery. Its offerings for various causes are liberal and the church and pastor labor in perfect harmony.—[Republished by kind permission from the "*Southern Presbyterian*."]

FRATERNITY LIFE AT THE UNIVERSITY OF THE SOUTH.

Were I to answer the question in a broad, general sense, I should say that its very essence is based on one word. A word which is dear to the heart of every alumnus, every student of every department and every one who has come

in contact with its magic influence. A word which is all significant to every student of the University and which unifies and concentrates in its enveloping broadness all that a College boy holds near and dear to his existence in College life.

That word is *Sewanee*—first, last and always.

It is not a very significant and inspiring word to one unacquainted with its mysterious symbolism. It is not a word that would ordinarily inspire terror to the heart of a foe on the rostrum or grid-iron; but it is a word sacred and dear to the hearts of all Sewanee men. "Sewanee" is our counter-sign; "Sewanee," our battle-cry, and "Sewanee" is indelibly stamped on the escutcheon which will be known from ocean to ocean.

That spirit which has always permeated the breast of a Sewanee man and has led him on to triumph after triumph in every phase of College life, infuses its influence in everyday life even in post-collegiate days.

"The Sewanee Spirit" it is called, and every student is held by its mystic chain. It is a spirit patent and copyright in Sewanee and even the new student soon finds himself swayed by its hypnotic spell. It enters the environs of every department imperceptibly and the whole is leavened and rises in its perfection to perpetuate the name of Sewanee and emblazon her name on the highest rung of the ladder of fame.

With the "Sewanee Spirit" to back us we have achieved victories on many trying occasions. With one mighty impulse its applause has spurred our athletic teams on to triumph, and has equally stimulated our heroes to conquests in scholarship and on the rostrum—in oratory and debate.

From the ruins of the war that indomitable spirit of never-give-up has reared, through perseverance and unspeakable difficulties, the fabric of what is destined to be *the* University of the South, and even now she is found all over this broad land of ours and she stands pre-emi-

nently for the *Gentleman* (in the highest sense of the term) and for scholarship and ability.

She stands for brain and brawn and, while her orators and preachers have thundered forth their eloquence throughout this great land, her athletic teams stand second to none in our Southland.

In such an environment we enjoy our Fraternity life. The individual is subservient to the whole—a smoothly-moving and harmonious whole, and the aim of every organization, the perfection and advancement of that whole.

Fraternity life may be classed under two heads, viz: General and Particular. The one—that of the various organizations and the other of Fraternity life. Particular, or in other words the life of *our* Fraternity.

There are seven Fraternities, viz: A. T. O., S. A. E., Phi Delta Theta, Delta Tau Delta, K. A., Kappa Sigma and I. K. A. All, with the exception of ours, in their prime and well organized and comfortably settled, Chapter Houses very neat in design and all on a generally good financial basis. We are all under the jurisdiction of the Faculty and University authorities and bound by their inter-Fraternity rules of the Pan-Hellenic Convention. Each Fraternity has two representatives at the Convention and all are wisely and harmoniously provided for. Harmony and good fellowship now march hand in hand and all differences are easily and satisfactorily arbitrated.

Regular rules and regulations are in operation relative to the pledging and initiation of the new students. I think that there is a thirty-day limit and this gives us better opportunities for investigating the character and merits of the new men.

Publications and enterprises of all descriptions are under the management of all the Fraternities and the adjusting of representation is always equally and satisfactorily arranged. The affiliates of all Fraternities are on the best of terms and everything done is for the good of all.

Just twenty months ago we made our advent in these surroundings and were most hospitably and cordially wel-

comed on all sides. The authorities were especially kind and considerate and the Fraternities, as a whole, gave us every encouragement. We, necessarily, had to paddle our canoe slowly and carefully over the shoals, and under very adverse financial conditions we struggled on. We were oblivious to the wiles of the god—mammon, and we pursued the even tenor of our way under very modest but encouraging advances.

We began with (6) six charter members (two of whom were old II's:—W. S. Claiborne and G. E. McLaurine). At the close of the first year we had about twelve at our fireside and altogether in our short existence I think we have initiated about seventeen. We have no debts and are gathering our little nest-eggs with which we are going to build the Chapter House which we hope will soon be a reality and not a matter of speculation. We are getting ready for an active campaign when we return after our vacation, and the Ides of March will find us ready and prepared for the fray.

As to the *Particular* I may introduce to the Brothers of other Chapters a few of our illustrious worthies.

William Sterling Claiborne, of Roanoke College, of football fame and now Deacon in charge at Cowan, Tenn. He is called "Bishop of Cowan" and, as the play, "What Happened to Jones" has it—he seems to think that "being a bishop is not so bad after all."

George E. McLaurine, (Vanderbilt,) manager of University Drug Store, '98-'99, has now begun business for himself at Pulaski, Tenn., and has taken unto himself an assistant manager, to share his joys and sorrows.

Chas. William Boyd, (S. C.,) noted for his bright intellect. Winner of Sewanee-Vanderbilt Debate of '99; Editor of Magazine of that year and noted in other literary fields. Now Deacon-in-charge at Gaffney and Blacksburg, S. C.

Godfrey William Radcliffe-Cadman, (Whew!) Very English B. A. this year and author of "Conquests Among the Fair Sex." I wish all II's could meet him.

Richard Mason, M. D., '98, Marshall, Va., a good solid fellow and his pills are good.

Henry Bragg Parker left us in '98 and is now at work in Montgomery, Ala. His sojourn with us was short, but he was an enthusiastic worker.

W. B. Bruce, Helena, Ark., is a "Colt" in the medical department. Not that he has a "cold" nor that he cannot cure one. He is our Medical Missionary.

C. W. Hill, Louisville, Ky. "Ladies' Man." Theologue. H. L. Castleman, of Castleman's Ferry, (I think Castleman Co.,) Va. He is Castle all through. He is our castle-builder rather air-castle-builder. He is for expansion, locally, and is very enthusiastic in his efforts to get our Chapter House that *is* to be. Look out for that air-Castleman.

John Hester Ward, M. D., Tuscaloosa, Alabama, '99. We have lost him and will miss his handsome face. We wish him well, and invite all II's to let him prescribe for their ailments.

Austin Miller, (Bolivar, Tenn.,) was with us for a short time, and we know that he is now well taken care of at the University of Tennessee.

Guy Tarlton, (Hillsboro, Texas), Junior Academ, left us on account of ill-health, but we hope to have him again next term.

Robert E. Lee, (Richmond, Va.,) Junior Academ. His name should speak for him, and we hope great things of him next term.

John Brown, (Columbia, Tenn.,) Junior Academ. New man and very promising. (?) We hope to see his cheerful countenance with us next spring.

Chapin Winston Radford, (Lynchburg, Va.,) alias "The Kid." He is "Our Baby." Deliciously enthusiastic and a hard and earnest worker. I wish we had two of him.

The writer (Georgia), Theologue. "Would be" base-ball and foot-ball player, sprinter and Secretary and Treasurer. Extra-ordinary.

I have introduced you—make yourselves at home.

Our home life is quiet and congenial, and we are look-

ing forward to getting our Chapter house. Our councils are marked by scenes of austere and calm deliberation, and our youthful Brothers discuss most momentous questions with the glibness of veterans. We encourage impromptu speaking, and *great efforts* (?) are matters of frequent occurrence.

As students we manage to hold our own, and as most of us are preparing for the two most sacred of callings, we mean business and realize the importance of availing ourselves of our many advantages.

With this slight glimpse into our lives we bid our Brothers adieu, and wish for II. K. A. a year of great prosperity and success.

Luther G. H. Williams, Chi.

THE CONVENTION OF 1900.

The time is near for another Convention of Pi Kappa Alpha. All organizations have annual conventions, and it is most necessary that a college fraternity should also maet in a body. Did you ever attend one of the II. K. A. Conventions? I don't know anything about other fraternities, but do not see how it is possible for them to be better than Pi Kappa Alpha. We are proud of our Fraternity, and justly so. Every II. K. A. Brother knows that we have a very gem, (if he does not, there is something wrong with *him*.) This true, we must conclude that a II. K. A. Convention is a joy forever. Brothers, I have attended one of them, and merely from this experience, am able to say to one and all: Come to the Convention! You will be glad you came—it will help you and it will help the Fraternity. You don't know how much your presence may accomplish. If you have never attended one, you have not met some of your older Bréthren, of whom you may well be proud.

Besides all this, the Fraternity needs your advise and counsel. We are growing now, we must grow more. Your

presence will stimulate the present growth. There should be two men from each Chapter, but if not two, *by all means one*. Every Chapter should be represented. Brothers, would it not be wise to begin *now* to arrange to send your representatives?

If we go to South Carolina we will have a fine time, for those II's there not only write like they are enthusiastic, but they are. Then Smyth's home is there, and we know how enthusiastic he is away from home; I fear we shall have to appoint a committee to allay his enthusiasm, when we meet him on his own ground.

Some Chapters, if it is possible for one Chapter to need it more than another, should not fail to be represented this year, viz., those that were not represented last year. But why cannot every Chapter be represented?

Let us think about the Convention and let us all come!

J. Pike Powers, Jr.,
Grand Secretary.

OUR NEW CHAPTER.

Sister Chapters: We take great pleasure in introducing to you our new Chapter at North Georgia Agricultural College, Dohlonga, Ga.

This college is situated in the north-eastern part of Georgia, twenty-five miles from Gainesville, in the Blue Ridge district. It is a branch of the University, and is one of the leading colleges of the South.

The matriculates now number one hundred and fifty men and forty young women. The curriculum of this college compares with that of any college of reputation in the South.

On Sunday night, March 19th, Bros. Shuff, Forbes and Woodruff, of Upsilon, accompanied by their noble "William Billy," left for Dohlonga. After a long mid-night ride we arrived in Dohlonga at 5 A.M. "Billy" was very much exhausted. We were met by our friends, all of whom we found to be exceedingly nice fellows. We were at once

very favorably impressed with them. We were shown the town and enjoyed an elegant repast.

We then adjourned to the initiatory room, and the ceremony began promptly at ten o'clock. We initiated eleven of the most congenial men that could be found at any college.

After conclusion of the ceremony "Billy" decided that he would rather ride than be ridden, having somewhat of a hard time "bucking eleven stout men, and in order to pacify and invigorate him, the new initiates gave a splendid supper.

Sigma Nu is represented by a flourishing Chapter, who cordially welcomed the new Fraternity.

The following are the initiates: R. M. Blount, A. F. Bell, P. J. Horton, J. C. Barnes, Alfred Sloan Ham, M. F. Monroe, J. A. Johnston, H. B. McKeown, M. H. Cox, F. C. Powell and F. A. Griffin.

J. W. Woodruff.

THE MEMBERS OF NU CHAPTER.

By way of introduction to those IIs who will attend the Convention, we have the pleasure of presenting a fine group photograph of the loyal members of Nu Chapter.

Let us introduce them to you as follows, beginning with the first man on the left of back row. They are :

L. T. Leitner,
H. A. Lewis,
J. H. Minnis,
B. H. Brown,
Professor R. A. Stuart,
H. M. Brown,
N. Alford,
A. E. Driggers.

Second row, starting on left :

B. H. Boyd,
E. C. Major,
W. C. Martin,
M. Auld,
C. D. Lee.

The three in front, starting on left :

W. W. Boyd,
C. H. Varner,
R. E. Mathias.

All good loyal IIs, and ready and waiting to give us a royal reception and good time.

The Editor.

NU CHAPTER.

Chapter Letters.

ALPHA.

University of Virginia.

Since our last letter we have done very little, we fear, along Fraternity lines, but our activity in other directions has been prodigious, as we have passed the ordeal of second intermediate examinations and have reason to believe that none of us has fallen by the wayside.

We were all much delighted to receive the last SHIELD AND DIAMOND and enjoyed it as only loyal Pi's can.

All of us have been very sick with spring fever and not able to do any work at all. We did nothing but sit in the warm sunshine and "swap yarns," and smoke, and wish that June was a little nearer, although we do dread those final examinations. But into the midst of our "hospital" consternation fell one day in the shape of six inches of "the beautiful snow," and the biting wind made us more than willing to draw close around the cosy fire and once again enjoy winter cheer. But spring may come after a while and then we will all have a relapse. The worst symptoms of spring fever was developed by Brother Lloyd, who was caught indicting an ode, or lyric. or whatever it was, to some fair maid far away.

We fear that he has a hopeless case, although the others are, so far, immune. It is rumored, however, that Brother Terry runs down to Salem more than his law studies would seem to require.

The ball team is in fine condition and will soon be ready to meet all comers. Several games are to be played with Princeton, Yale, Harvard, Pennsylvania, Cornell, Lehigh, Lafayette, University of the South, and others, most of

them at Charlottesville, and we anticipate some great playing.

Although the time set for the Convention is not convenient for us, we hope that some may be able to attend and meet the Brothers of the Chapters.

With best wishes to all we close,

Jack P. Montgomery.

BETA.

Davidson College.

We are glad to see the last issue of the SHIELD AND DIAMOND so full of interesting news of the progress of the Pi's.

We wish to extend to our newly established Chapter our congratulations and hope them all possible success.

Since our last letter to the SHIELD AND DIAMOND we have added to our number a loyal and congenial Pi, and so we take pleasure in introducing to the Fraternity Mr. H. C. Davis, of Fayetteville, N. C., of the medical department of the class of 1901. Brother Lafferty was with us to aid in the initiation of this loyal member, and after a successful ride of the "goat" came through very well with the exception of a few bruises. Beta feels proud of the work done this year, having only one Brother on the war-path at the opening of the session. By his untiring energies we have now four loyal members. The prospects of Beta are as bright as they have been in her history, and with the return of all the members we hope next year to build up one of the strongest Chapters in College.

Brother McKay took a flying trip February 2nd to see his "best girl" and returned with a face full of smiles. "Something pleasant must have happened."

Base-ball is now full in the bud and we hope by the opening of the season to have our team well trained and upon the field to meet all foes. This is the first season that our Faculty has allowed us games off the campus, and we hope to show our opponents what "strength" has been

sleeping so long. Also we hope to send representatives of the track-team to a contest to be held at Oxford about the middle of April. From the hard practice the boys are doing we hope to take off many honors. Our only regret is we have not a representative among them.

The Martin Chemical Laboratory is about completed and the boys are looking forward with pleasure to the time when the professor says "take charge." It is one of the latest and most improved chemical laboratories in the State, and the boys justly feel proud of it.

Thos. P. Bagley.

GAMMA.

William and Mary College.

The men of *Gamma* had about come to the conclusion that they would not impose upon "Billie" the arduous task of conducting another man through the mysteries until next October, but when such material as Mr. R. B. Fade passes our way there is nothing left to do but to get the above named animal to work immediately. It was a question of a few minutes for the little animal to conquer his man, and as a result of the struggle we are enabled to announce to the Fraternity that Brother Fade is a full fledged II.

During the past two months nothing of especial interest has transpired in the Grecian world at William and Mary. The Frats here seem to be resting on their laurels, and are enjoying fraternity life to its fullest extent, as is proven by the following:

On the evening of February, 23rd Kappa Alpha gave a very brilliant and beautiful german, which was thoroughly enjoyed by all present. This was followed by the Kappa Sigma german on the evening of the 26th, which for the space of five hours highly entertained the social world of Williamsburg, and many brothers from neighboring cities. *Gamma* was well represented at both germans, having six

men invited to each, but none of us have been able to decide to which of our sister Fraternities we are indebted to for the most enjoyable evening. These delightful occasions were interspersed with hops given by the German Club, which filled up the intervening intervals, and went to make up a most enjoyable week. Gamma will open up spring gaieties by her german, which takes place on the 20th of April. All II's are cordially invited to be with us on that occasion.

The base-ball team is hard at work. Every evening they may be seen sprinting around the diamond at a furious rate. Manager Thomas is very jubilant at the prospects for a good team, and expects a successful season.

Our first game with any of the league teams will be with Randolph-Macon in Williamsburg on the 7th of April. This game will no doubt be an exciting one, because it is rumored that Randolph-Macon has a fast team, and is straining every nerve to wipe out the stain of the two defeats which we inflicted on her last season. *Gamma's* star player is holding down third base, while another of her men, not so well skilled in the art of handling the horsehide, manages to get an occasional pop-fly at short-stop.

Our men have been exceedingly fortunate in getting final positions. Bro. Williams has been chosen Final Orator by the Philomathean Society, while Bro. Hutchison serves the Phoenix in the same capacity. Bro. Williams and Bro. Stevens both have final positions in the Senior club.

In accordance with the wish of the majority of the Chapter, *Gamma* names Spartanburg, South Carolina, as the meeting place of our next Convention. She expects to send a man, and wants every other Chapter to do the same thing. Let's throw some vim into the Convention and make it a grand success. Every representative should carry some idea or suggestion from his Chapter that will further the interest of the Fraternity.

F. S. McCandlish.

ZETA.

University of Tennessee.

Spring has come at last, and with it the organization of the 1900 base-ball team.

We are proud to say that Zeta Chapter of II. K. A. has had her share of honors in all the branches of Athletics at the University this year, as well as previous years.

Several weeks ago Brother M. R. Campbell was elected President of the Athletic Association, and at the last meeting of that body Brother Richard H. Alexander was elected manager of next year's foot-ball team—1900.

Judging from present indications II. K. A. will be well represented on this season's base-ball nine. Although the team has not yet been selected, it is likely that Brothers Campbell, Bryson and Cannon will be honored with positions.

University life is somewhat gloomy at present, owing to the fact that the spring examinations begin on the 22nd of this month, but when they are over students will enter into all sports with renewed energy.

Much to our regret Brother James Barlow anticipates leaving for his home in Savannah, Tenn., in the near future, and needless to say he will be greatly missed.

Brother Barlow expects to return to the University next year. We anxiously await his return.

In conclusion, Zeta sends her best wishes to her sister Chapters and to all II's.

C. Raleigh Harrison.

THETA.

Southwestern Presbyterian University.

After toilsome days and sleepless nights we have finished (and we trust successfully) our spring examinations. With a sigh of relief from the anxieties that hung over us during that trying period, we address ourselves with renewed courage and light spirits to the work of the last quarter of the

session, looking forward with hopeful minds to the last day, when we shall gaze upon the list of "those who passed," and find our names "written there."

And not only this, but if the gods are kindly disposed we hope to maintain, to some degree at least, the past reputation of old Theta by carrying of the "lion's share" of the honors on Commencement Day.

We regret to chronicle the recent departure of Bro. Barr for his home in New Orleans. He had to resign from College on account of his health, but hopes to be present again with us next year. Bro. Barr has always been a loyal, enthusiastic Pi, and his jovial countenance and kindly good nature will be greatly missed by us all. His room-mate, Bro. "Billy" Shore, said that Bro. Barr had left his affections behind as a legacy to his beloved room-mate for the care shown him during his illness, whereupon "Billy" became proud and vain, and now stalks around amid his fellow students, high-headed and "stiff-necked." "Billy," nevertheless, is destined to become a potent influence in the Fraternity in winning the graces and affections of "the fair" for our sacred circle.

Brother Frierson is wearing upon his gracious countenance a more elongated expression than usual, evoked by the recent departure of "a daughter of the gods, divinely tall and most divinely fair," who glided down from the mountains of East Tennessee and stole away our runaway brother's affections. He is now working hard on the baseball team, trying to divert his mind from his sorrows.

At the recent appointment of the Faculty speakers Bro. Fraser was chosen as one of the honored ones, and will no doubt reflect credit, not only upon us, but upon the College, in that capacity. This is Bro. Fraser's graduating year, and we regret very much that he will not be with us next year. He has been a staunch and loyal Pi for four years, and to say he will be missed is putting it lightly. Notwithstanding the fact that he is kept very busy with his math. and chem. he *occasionally* finds time to spend an afternoon with his little (?) Pi sister. Ye scribe

was also chosen as a speaker on the Inter-Society-Oratorical contest.

The rest of the brethren are pursuing the even tenor of their way, Bro. Mooney having found another as the object of his affection, while Bro. McFadden is superintending the work of our athletic field, which will be one of the best of any College our size in the State.

This Commencement will mark the Twenty-fifth Anniversary of old S. P. U., and great preparations are being made for its celebrations.

The Pi's hope to have a great treat in store for ourselves and the alumni, and so old Theta sends a special invitation to all her old members and to the Brothers at large, to be present. 'Tis something you can't afford to miss, and we hope to see you here in June.

May success crown every effort of dear old H. K. A. is the wish of Theta.

A. O. Price.

IOTA.

Hampden-Sidney College.

Spring has come at last and with it the fever for baseball, as well as spring fever. Our athletic field is covered every evening with the aspirants for the team, and judging from the number of these, our captain will have no difficulty in selecting a sufficient number of strong players to represent us in the sport.

Since the publication of our last Chapter letter there has been organized in College the Alpha Tau Chapter of K. A. Fraternity. Its members have the best wishes of all of us for a successful career in Greek letter life.

Some weeks ago certain gentlemen, deciding that things around here were not gay enough, determined to effect a change. The following morning the College chapel appeared artistically decorated with bright yellow paint, while the benches were smeared with very black and sticky molasses. We regret to say that the efforts of these gen-

tlemen were not received by the faculty in the same spirit with which they were bestowed. We hear that the Y. M. C. A. is lamenting the loss of large quantities of yellow paint intended for improvements in their reading room.

The editor of our College Annual, "*The Kaleidoscope*," informs me that the volume is now nearly ready for publication, and two of the members of our Chapter, who are on the staff, say that they think it will compare favorably with previous numbers.

Although there are doubts in the minds of some of us as to whether the dates proposed would be most convenient for holding our Convention, all agree that no more suitable place could have been selected than the home of our Nu Chapter.

Alexander Martin..

MU.

Presbyterian College of South Carolina.

As a rule, to College students in general, the few months that they spend away from home are considered and realized as "quite a while," but to us fellows of our dear old Frat., (and also the members of our various sister Chapters, we presume), commencement is thrust upon us before we have accomplished all that we would like, and just in the zenith of our enjoyments, the doors of the old Frat. hall are closed and the keys of the old pad-lock are placed in the hands of one whom we hope and trust will be at his post when College re-opens.

The honors and positions that have fallen upon the men of "Mu," as representing the various departments and features of College life have been so many, that should the writer unconsciously neglect to place their names in these lines, they must "rest easy." In the election of officers of the Eukosmian Society, Brother Carpenter was elected vice-President and T. E. Simpson, Critic. In the Philomathian, Brother James Henley Thornwell, Jr., was elected Secretary. In the June Debate Brother Carpenter

will represent us, and Brothers Fuller and Thornwell will act as Commencement Marshals. Brothers Johnson, Wilcox, Thornwell and Fuller will undertake to carry off the Declaimer's medal. But we don't want but one of them to get it. We must not omit the base-ball team, for as the players take their positions on the diamond, only *seven* of them are II's, and if it becomes necessary we can place two more there. We are counting on a game with Wofford about Convention time, and we can *all* take it in.

It becomes our pleasant duty to introduce to the Frat. at large, our two newly initiated brothers, G. W. Wilcox, of Elberton, Ga., and Charlie Simmons, of Greenwood, S. C. Both are so loyal and take such an interest in Frat. life, that if they should happen to ask you a question about the mysteries of II. K. A., and do not receive an immediate reply, you will suffer the consequences. They have been using much energy in their endeavors to find an object on which to hang old gold and garnet, but we must confess the chances are few, as neither are lavishly endowed with "*handsomeness*." In every other respect, though, they exhibit the rare qualities of II's.

Brother Marian, who has had charge of the Inman High School, has entered College again, ranking among the Seniors. It is useless to say that we are glad to have him with us again, for his suggestions and plans are always well founded and effective. His arrival has increased our number to eleven strong, and the twelfth man we will introduce later.

The Faculty gave us the use of one of the nicest rooms in the College building for our hall, as the Dormitory was needed for accomodating new students. So on Macrh 20th, in the stillness and shadows of night, we gathered up bag and baggage, and transferred our costly possessions to our new hall. The room is much longer than the one we have been using, and we intend to make it something to be proud of.

We extend a hearty invitation to all delegates, who will have to pass through our city on either way to the Con-

vention, to make it convenient to stop over with us if possible.

Wishing to see many of you, face to face in Spartanburg, we bid you good-bye.

T. Ellison Simpson.

NU.

Wofford College.

We are glad to report that Nu is moving on smoothly and is receiving her share of College spirit and animation,

But few items of interest have happened since our last Chapter letter.

Our Anniversary Celebration came off on the evening of the 22nd of February. Our Brother Claude Martin was equal to the occasion, and by his interesting speech and easy and graceful manner of delivery he honored himself and delighted the eager crowd, who listened to him.

Brothers Alford and Leitner have been quite sick but we are glad to say that they are much better.

We are all hard at work for the March examinations and, although it marks the time when many bright geniuses sink never to rise again, yet Nu is hopeful that all her brilliant array of geniuses will pull through safely.

Nu is still living under the inspiration of having the Convention at Spartanburg. We, as a Chapter, feel highly honored that fortune should deal with us so kindly, and at the bottom of our hearts, as a united brotherhood, we feel that the Convention will work inestimable good to our Chapter. We hope that our sister Chapters will not feel that we are selfish in contending for an honor which others would appreciate, yet in the face of this fact we long for the Convention to meet in our midst. And again, to the delegates of our sister Chapters who anticipate being with us, we send greetings and also the assurance that warm hearts and open doors await them in the busy enterprising city of Spartanburg.

We feel that this letter would be incomplete if we did not speak of the real pleasure and delight that was ours in

reading the valuable contribution "The II. City"—by Brother Thomwell Jacobs. He certainly pictured the ideal city which should be the goal of all true pi-ism and also he showed the kindred spirit which makes the great Fraternity show one grand continuation of ours below—love.

With best wishes to the SHIELD AND DIAMOND and all of our connections elsewhere, we close.

A. E. Driggers.

RHO.

Cumberland University.

Rho has been running along smoothly since we last wrote, and although we have had nothing very exciting, yet we have had a very pleasant time.

Brother Alexander has again added to our pleasure by his presence, and we felt complete on Monday night, March 12th. Rho had a most excellent and enjoyable evening. A program of music, vocal and instrument, was mixed with pointed and live speeches, and fried oysters, olives, pickles, crackers, cakes, "lemonade" and other dainties, and a more enjoyable evening has seldom been spent by Rho Chapter.

Sister Chapters, you do not know how much enjoyment can be had by such an evening. Try it.

I would be a very heartless and thankless fellow if I did not proclaim to the Chapters at large the loyalty of our sisters who furnished the cakes on this occasion; more cake than twenty fellows could eat or take away was the offerings of love from these fair sisters, and we do not say we have the best sisters of the Fraternity, but surely they cannot be excelled either in loyalty or sweetness. May they ever be so.

And in closing we will say that Fraternity life in Rho is a tender spot in our hearts which nothing but death can erase.

For a congenial and manly set you cannot find its superior, and in intellect it stands head, as shown by the fact

that in the two public oratorical meetings the II's have always carried off all honors, and in the contest for Representative to the State Oratorical contest two out of the three were II's, and a II got the honor, and the other II's was a close second. The ones I speak of are Brothers Pryor and F. L. Wear.

With best wishes,

H. H. Weir.

SIGMA.

Vanderbilt University.

Since our last letter we have initiated into the mysteries of II. K. A. Brother Stainback, of Somerville, Tenn., and it gives us pleasure to introduce him throughout the country. He is acknowledged to be the leading member of the Junior Law Class and is president of the Dialectic Literary Society. We feel confident now that we will have enough old men back next year to make Sigma Chapter larger and more prosperous than ever.

During the recent spell of pretty weather, the athletic field was full of men practicing for base-ball and track work, but this was soon stopped by a few days of snow and rain. Brother Pike is prominent among the candidates for the base-ball team. He is also a prominent "ladies man." Nearly every Sunday afternoon he goes over to see a certain East Nashville girl, but tells us that her father doesn't allow any other boy to go to see her.

Brother Massey went as a delegate to the State Y. M. C. A. Convention at Chattanooga last week. He reports a delightful time. His expenses were all paid, of course.

For several reasons it suits our Chapter better for the Convention to be held some time later than the 20th of June. We are all exceedingly busy during the month of May, preparing for examinations, and especially busy will be our delegate, Brother Hoggins, who graduates in June. And really we would prefer that the Convention be held in Charleston. No doubt all the delegates would love to

make Brother Smyth a visit. He is our shining star of whom we are all proud, and so Sigma Chapter votes that we "take one on him." We hope soon to be able to furnish the SHIELD AND DIAMOND a picture of our Chapter. We want our Brothers to know what kind of set we are.

The D. K. E. Fraternity gave a dance at their Chapter House not long since, and the writer of this letter represented our Chapter. He had a very pleasant time and shook his heel freely.

We hope at our next writing there will be more excitement, so we can have a more interesting letter. With best wishes and regards for H. K. A.,

Wm. L. Clarke.

TAU.

University of North Carolina.

Tau sends greetings to her sister Chapters and trusts that they have each had a successful year.

Since our last letter one of our members, Brother Rucker, has received his license to practice law, and is now located at Rutherfordton, N. C.

The number of Fraternities at the University of North Carolina is constantly growing less, five having died within the last five years. This is partially due to the Trustees of the University passing a law that no student shall be even pledged to join until October of his Sophomore year.

This cuts down the number of Fraternity men here by at least one-third; thus causing some of the Fraternities to give up their charters. There are now ten Fraternities represented here.

As to the Convention. Some time in June would be much more convenient for Tau, as we could have almost all our members at the Convention. But if it is decided to hold it on May 2nd, 3rd and 4th, Tau will be sure to have at least one delegate on hand.

We have been corresponding with our Alumni, and already we have heard from four, all promising to be at the Convention.

Claude L. Miller.

UPSILON.*Alabama Polytechnic Institute.*

Upsilon's "Billy" has been resting up a little for the last two months and the old fellow will be in good spirits next week, when Brothers Woodruff, Shuff and Forbes, are going to take him over to give some of the Georgia boys a nice little rough ride into "Pi-ism." Our "Billy" is a well trained animal and will be a fine mate to break the Georgia steed with. We are satisfied that he will show the Georgia "Butter" how to butt and at the proper intervals.

Brother Harry Houghton, '98, has accepted the position of Assistant in Chemistry, and he will be with us for a while.

Brother J. T. Letcher has been at his home in Shorters, (Ala.) sick for the last six weeks or more. He is slowly improving now, and we expect to see him back, leading his class again, in a few days.

Auburn has recently lost one of her most deservingly distinguished professors, Dr. C. H. Ross, Professor of Modern Languages, died about three weeks ago in El Paso, Texas.

The time suggested for holding our next Convention, we think, could hardly be improved upon.

Brother W. D. Willis has been chosen to represent our Chapter at the Convention.

Hoping the coming Convention will result in much good to all II's, we will close.

Arthur F. Jackson.

PHI.*Roanoke College.*

Base-ball is all the "go" in College now. In spite of the many predictions that the team this year would be weak, on account of so many of last year's players being away, the new men are coming out regularly to practice and are showing up very well. All now expect the team to make a good record in the "Intercollegiate State League."

Phi will have only one man on the team, Brother J. A. Bear hopes to show up "somewhere" in the field.

The lecture given in the Town Hall March 6th, by Misses Handy of the Alleghany Institute, for the benefit of the College Athletic Association, realized a large amount, which was turned over to the Association.

Fraternities have done very little in College this year. This fact is shown by the fact that there are only twelve Fraternity men in the three Fraternities chartered at College. The Sigma Chi have six; Phi Gamma Delta two; and Pi Kappa Alpha four.

On Monday night March 19th, Mr. Charles Edward Bear, of Salem, Va., brother of Brother James A. Bear, was initiated into the secret circle. Brother C. E. Bear is one of the most popular members of the Freshman class, and a good student, and we feel sure he will make Phi an excellent member.

Since our last letter Brother Stone has left College to help his father in business; however, he expects to return next year.

Brother Wilson made us a short visit in February. We very much regret that a protracted case of rheumatism prevents him from graduating with his class in June. He will not enter College again.

Phi has gone slow this year and has initiated only two men so far, but this is the case because material is scarce. Nevertheless we now have some good substantial men in view, whom we hope to introduce to the Fraternity in our next letter.

John W. Cabell.

CHI.

University of the South.

Our holiday is over and most of our fellows are here again and ready for business. Our term began on March 15th, and as the weather was cold we did not get a very warm reception on our return, but as the ground was covered with snow we could not say that we were not "treated white."

The "rush" has begun, and we have already pledged one new man, whom we'll introduce to the Brothers a little later. "Billie" has been pasturing all winter and is in need of exercise, so we'll give him a trial shortly. It has been said that "Billie" is most dangerous when he backs off as if in retreat, but will let the new candidate investigate that.

The University starts off on the New Year with bright prospects, and gives promise of advances in many lines.

A clock has been placed in Breslin Tower, and a set of chimes are now in place and chimes the quarter-hours, half-hours, three-quarters and hours, and while the novelty lasts they seem to be rather monotonous, but in time will be good companions in passing away the hours of grinding.

A new \$50,000 dormitory is being erected for the grammar school boys, and it is to be very tasteful and comfortable with all modern conveniences.

Sewanee is on the upward move, and with her two new \$50,000 buildings will be prepared to stand in the front rank among Southern Colleges. We already stand at the head of Southern Colleges in both branches of athletics, and have been unbeaten for two years. Intellectually our boys rank with the first, as they have won the majority of prizes in competition with other church Colleges. We won the Southern Oratorical Contest last summer, and also defeated Vanderbilt in joint debate.

Our friendly relations with Vanderbilt have been renewed, and we expect to meet her in base-ball, foot-ball, oratory, debate and chess. Four games of base-ball have been scheduled, and we expect an interesting competition.

Our ball team was unbeaten last year and, as all of our old men will return, and we have some good new material, we expect to make it warm for some one in the base-ball line.

We extend our greetings to all Brother IIs, and trust that we will work for the Convention, and not only make it a grand success but lay the foundation for the greatest material success in IIs history. *L. G. H. Williams.*

Editorial.

WE BRING YOU THIS month the official call from the Supreme Council for the assembling of the Fraternity in Convention at Spartanburg, S. C., the home of our Nu Chapter, May 2nd, 3rd and 4th, Wednesday, Thursday and Friday. It has been almost the unanimous choice of the Chapters and we do not believe that any previous Convention date and place, has had so nearly a unanimous approval. Of course, it is to be deeply regretted that three of our Chapters, on account of their final examinations may not be able to be represented. We trust, however, that later on it may be found possible for every Chapter to have a full representation.

We think the time a very happy selection, as the Chapter Delegates will return direct to their Chapters and the enthusiasm obtained, by contact with other II's, will be infused into the entire Chapter. The delegates will be able, while everything is fresh in their minds, to make a full report of the important matters discussed at the meeting. Thus the Chapter can thoroughly digest and govern itself by this information and be prepared, at the beginning of the next session, to go to work with a new vim.

WE TRUST THAT every one of our Chapters will make a special effort to be well represented at this Convention. As we grow older and stronger, we should more and more appreciate the great benefits to be derived from these annual gatherings. Surely no II will deny that to our recent Conventions is due our present splendid condi-

tion and the new life which has been infused into the Order. Our worthy Officers have each expressed to you in the preceding pages, their opinions as to the importance of a large attendance at this meeting and it is scarcely needful for your Editor to add anything more.

The two or three Chapters, whose examinations come at this time, should make every effort, if possible and consistent with their College duties, to send a Delegate. The other Chapters, who have so heartily approved of the date and place, should see that several delegates are sent. We would especially emphasize the sending of more than one Delegate by each Chapter, for there are many matters to be discussed at this Convention and we need a very full representation.

THOSE WHO ATTENDED the Knoxville Convention, will remember that probably the most enjoyable session of that charming meeting, was when the Delegates gave reports as to the condition of their Chapters. We have, at each Convention, devoted more and more time to these reports, and thus endeavored to emphasize their importance. Their publication in the "*Dagger and Key*" proved of greatest interest and value to the Fraternity at large. It was very hard, however, to obtain these reports for publication. The Delegates had not prepared them in writing, they being simply verbal and re-written afterwards from memory.

AT THE COMING CONVENTION, each Chapter should have a full and exhaustive report presented through its Delegates. Let this report be carefully written out, *on but one side of the paper*, and be read and discussed at a meeting of the whole Chapter, in order to make it complete. It should then be signed by the officers and conveyed by their Delegates to the Convention. We urge that Chapters refer to the last "*Dagger and Key*" and read the reports made

to the last Convention, so as to get a good form to follow.

Should any of the Chapters be prevented from sending a delegate, they must not fail to have their reports, fully and carefully made out, as above stated, and mailed in plenty of time for the Convention. We trust the Chapters will carefully note this suggestion and follow it out fully.

AS TO THE SOCIAL side, we can only refer you to South Carolina's renowned hospitality and assure you that a warm and hearty welcome awaits you inside her borders. Nu Chapter is specially strong this year and in splendid shape, and we know that, appreciating the honor, of a visit from her Brothers, she will put forth her best efforts to give them all a most enjoyable time.

It will be particularly enjoyable for us to hold this Convention inside a Chapter House, built and owned by II. K. A. Those of us, who have watched the growth of the Fraternity in past years, feel a great pride in knowing that at last one of our Chapters owns a Chapter House.

WE CAN ONLY SAY, therefore, that every II in this entire Southland should be present with us in Spartanburg. All of us can now point with pride to our Fraternity, for it has taken a stand in the College world of the South. It is recognized by other Fraternities as a growing and flourishing Order. It is noted for the high character and prominence of its members, and is respected by all who come in contact with it.

The Fraternity needs your further help and co-operation at this time. It needs your advice and assistance, for there are weighty matters to be discussed at this meeting, which will effect the whole future of the Fraternity's life. Let every II, therefore, come—and come prepared to work.

IT IS WITH GREAT PLEASURE that we call your attention to the interesting account, in this issue, of our entrance into Georgia and the planting of our Psi Chapter at its Agricultural College at Dahlonaga. We heartily welcome this Chapter into our Fraternity, and trust that it will always prove worthy of the Old Gold and Garnet.

To Upsilon, and especially to Bro. J. W. Woodruff, is due the credit for working up this Chapter. We are also indebted to Bro. H. B. Arbuckle for his loyal interest and help in carefully looking into the matter. The reports as to the members are exceedingly pleasant. They are all young men of high standing in their communities, in their classes and in the College. Let us extend, therefore, a hearty hand-shake to our new Chapter, and be prepared to give them the warm grasp of the hand at our approaching convention in Spartanburg.

WE ASK THAT THE CHAPTER Correspondents, in their letters for the June number, give us a very careful and full account of the members of their Chapters. We would like to have their full names and summer addresses, and a careful record of all honors taken by them during the College year. We would like to have the names of those who will graduate and where they will go, and what will be their profession. This will make an interesting and valuable set of statistics, and we trust the Correspondents will give their careful attention to this request, and without fail report fully in accordance therewith.

Official Communications.

ANNOUNCEMENT NO. 1.

To the Members of the Pi Kappa Alpha Fraternity—Greeting.

1. Article 5, Chapter II, of the Constitution, having been fully carried out, I herewith summon the members of the Fraternity to assemble together in Spartanburg, S. C., May 2nd, 3rd and 4th—Wednesday, Thursday and Friday, for the Annual Convention.

2. The headquarters of the Convention will be at Spartan Inn, where the delegates will be accommodated at the special rate of \$2.00 per day. The business sessions of the Convention will be held in the upper chamber of the Chapter house of Nu.

3. The first business session will convene *Wednesday morning, May 2nd, at 10 o'clock*, and as many sessions per day as advisable will be held. It will be the object to transact the work as quickly as possible, in order that expenses of delegates may be made as light as possible. *Delegates should arrive in time for the first session.*

4. Very low rates, within a radius of 200 miles from Spartanburg can be obtained, which will greatly reduce the expenses of the trip. It is needless here to say anything as regards the importance of a large attendance. In the preceding pages this matter has been thoroughly treated. We think all II's now appreciate the benefits to be derived from the Convention.

ROBERT M. HUGHES,
Supreme Councilor.

APRIL 11, 1900.

OFFICIAL ORDER No. 1.

To the Several Chapters of II. K. A.—Greeting.

1. Chapters will immediately elect delegates for the Convention at Spartanburg, S. C., and are requested to send their names by April 25th, to the General Office, so that a roll may be made up and duties assigned. Alternates should also be elected and their names reported at the same time. Each Chapter should endeavor to send as many delegates as possible—at least two.

Read carefully Chapter II, Article 5 to 8, of the printed Constitution.

2. Attention of each Chapter is called to Section 17 of Article V, Secret Constitution, requiring Record books to be submitted in good form to the Convention for examination. Each Chapter should see that its delegates take charge of the Record book and bring it to the meeting.

3. It is earnestly hoped that the Chapters will give careful attention to all these matters, so that when this Convention assembles, everything will be in due form and its business can be carried on without interruption or the omission of any duty on the part of the Chapters.

Let as many come from each Chapter as possible.

ROBERT HILL,
Councilor Princeps.

APRIL 11, 1900.

OFFICIAL ORDER No. 2.

To the Several S. M. C's of the H. K. A. Chapters—Greeting.

I enjoin upon you the importance of having full reports of the past year's work of your Chapter carefully written out and sent to the Convention by your delegates. These reports should be made very full, as they are of the utmost importance. You are referred to the last copy of the *Dagger and Key*, page 25, which will give you a form to follow. However, these are but scant reports, and it is desired that those submitted to the Spartanburg Convention should be as full and complete as possible. This is very important, and it is urged that Chapters give attention to it.

ROBERT HILL,
Councilor Princeps.

APRIL 11, 1900.

FINANCIAL MATTERS.

Chapters are requested to read carefully Section 12, 18, 19, and especially 20, of Article V, Secret Constitution, and give heed to the same.

We want all Chapters entitled to representation at our grand Spartanburg Meeting.

Please therefore carefully observe this word from the Grand Treasurer.

ROBERT A. SMYTH,
Grand Treasurer.
