Thanksgiving

HERE'S vivid new excitement
In the seething tide that flows
Round canyon cliffs of trade
Where the city shopper goes:
For mother notes a turkey,
Tender bird, right in its prime,
Just then father spies a goose
And that's Thanksgiving time.

There's bustle in the office
And the boss forgets to swear
At the office boy whose whistle
Proves a trial hard to bear.
Switchboard lights are flashing
As the calls go speeding through,
Snatch your lunch—go shopping
—Yes, that's Thanksgiving too.

There's hoar frost on the L track,
And a mist drifts from the lake,
White background for dun smoke cones
That the snorting engines make.
Lights gleam on the boulevard
In golden serried rows
For beauty in our city street
—Is what Thanksgiving shows.

There's the cripple at the curbstone,
—Blind fiddler with his dog;
Oft seen, but scarcely heeded
When we walked in ego's fog.
But now the veil is torn away
So we know we've got to do
Some little thing for those life hurt
—It's *their* Thanksgiving too.

There's wisdom in the edict
That sets such days apart
For thanks to our Creator
And the searching of our heart;
Bids us halt in our mad rushing
To reckon whither we are bound;
Somehow things are altered
—When Thanksgiving cause is found.

There's phantom lights we chase
—Most dreams are deceiving,
Men curse at fate and cheer for pelf,
Forget their souls' retrieving.
A noble life, would we but try,
With thoughts but for the true,
Would be our blessing most divine
—And our Thanksgiving too.

St. Louis In 1924

ON'T let anybody tell you there isn't something new in the way of Pi Kappa Alpha conventions. Let St. Louis tell you we are planning something "somewhat different" as the ad writers say. Then come here next spring and make us make good.

To begin with—the hotel. We have picked St. Louis' newest and finest, Hotel Chase. Its location alone is a novelty—in the heart of the finest residential district, across a boulevard from Forest Park and its countless attractions. Indeed, we plan to make your visit to the 1924 convention a combination city stay and sojourn comparable to being at an exclusive summer resort.

Here are some of the special features:

Golf.

Tennis.

Motoring

Walking.

Art Museum.

Horseback riding.

Possibly Swimming.

A wide variety of evening entertainment.

The greatest aggregation of pretty girls in any city.

Outside of that it will be a great convention, with the largest attendance on record expected, due to the central location of our fair city. Don't forget that many of you are going to be able to motor here conveniently.

Read projected details of extra special entertainment stunts by the most unique and unparalleled company of Pi K A stars in or out of captivity.

you're going to say, "St. Louis sure had an entertainment committee." Smoker?—it'll be a knockout! Cabaret?—you haven't seen anything yet! Dance?—oh, boy! Orchestra?—it's the home of Brunswick record makers! Girls?—there'll be nine to a fellow! Good looks?—they pick the movie vamp from here! Golf?—nineteen clubs invite you! Shows?—from Ziegfield to Maude Adams! Roof gardens? Hotel? Accommodations?

free rules, except Babe Ruth stance and Norma Talmadge grip will be barred.

District Princeps Golf Match—boys, count the strokes and read the score cards of our upright district leaders.

Chapter Championship—scholarship trophy will be given the high medalist.

Horseback Challenge—Grand Princeps Perez will ride against all comers; best two falls out of three.

On to St. Louis Tennis Race—Gerald Lambert and J. Harold Johnston, starting, respectively, from Butte, Mont., and New York City, will see who can get here first swatting a tennis ball with a racket, and the winner will take on all you tennis champs.

Art Event—Henry Hammett and his *Shield and Diamond* staff will be judges in an open contest as to the comparative merits of displays in the Art Museum in Forest Park and on King's highway, between the park and Hotel Chase.

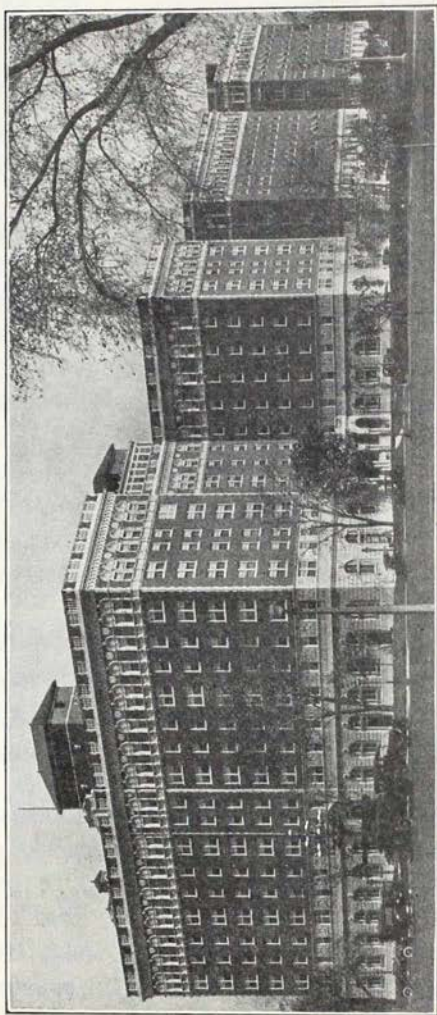

Throwing the Dice—competition between district champions, judged by Brother Pickerill, grand chaplain, as to conversation; by Brother Eversole, grand chancellor, as to safety, and by Brother McFarland, assistant grand treasurer, as to stakes.

If Mark Twain were a Pi K A, he might remark, "Well if *all* that doesn't come off, something just as good will."

We won't tell you about our plans for evening entertainment. Curious anticipation whets realization.

Dates of the convention have been tentatively set for April 22 to 25, Tuesday to Friday after Easter.

Don't forget to get railroad receipts, so we will get reduced fares; details later.

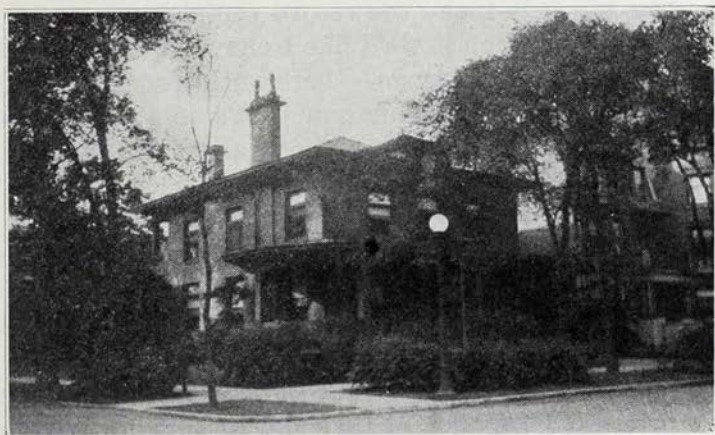

HOTEL CHASE 1924 CONVENTION HEADQUARTERS

Treasure Island==Chicago Version

SIXTEEN men on a pile of trunks—Yo heave ho—and a nice new home.” No, it not a new version, of Treasure Island—except insofar as the new H. K. A. Club house in Chicago may be called a treasure. It’s just a summary of what happened on October 1st when we moved from 1450 to 1423 Hyde Park Boulevard. One truck, three flivvers and plenty of manual labor were required to do the trick—but come and see what we have to show for it. Of course we did startle the local population a bit. When you meet several students strolling nonchalantly around at midnight with armfuls of dress suits, and lugging a collection of suit cases, sporting goods, tin hats, and such like, it does surprise you a bit—but we had lots to do and not much time to do it in.

But the worst is over now, and we are getting settled in our new home. When you come around we can entertain you with the combined resources of a grand piano,

H. K. A. CLUB OF CHICAGO.

a console Brunswick, a saxophone, a cornet, sixteen men, and a dog. Oh, yes, we have a dog—we inherited her from the former occupants. Topsy spends most of her time watching over our big garage which holds three cars—you'll see her when you drive in.

The house itself is as substantial as it is handsome—old enough to be cosy—but as full of modern improvements as a flapper's vanity case. On the first floor are the reception, music, and dining rooms. On the second are the studies—already decorated with pennants and various dream girls' photos. Up on the top deck is the dormitory where a tired Pi can gather energy for another wrestle with business or studies.

Bring the family along when you come to call. You know how the Pi Kap sisters enjoy looking over a house—and incidentally they give us valuable wrinkles in domestic economy. But they'll have to come early or our new housekeeper will beat them to it for she has a pretty keen eye for our comfort. Also we'll be interested to see if you agree with the verdict of fellows from other fraternities who say we have slipped one over. And by the way we brought our visitors' register with us. It already contains names of men from some thirty chapters—perhaps you can help make the record complete.

If you can arrange it we'd like to have you living with us while you are in Chicago—there's still room for a few more beds. But drop in anyhow if it's only for an hour or so—because there are big times ahead for Alumnus Alpha Theta and we want you to share them.

It's Indian summer now—winter soon—just the time to gather round the hearth and swop college yarns with a crowd representing schools from Kentucky to Wisconsin—from Syracuse to Utah. And we have four hearths that blaze for friendship and II. K. A.

If you have only a few hours between trains and can't get out to the house look at the calender—if it's Wednesday there is a noon lunch at the Men's Grill of Marshall

Field's—that's where several of the Alumnus Alpha Theta men can be found talking football and the details of the membership drive now in progress. When we get that drive finished we are planning another for associate members in the club—of which more later. Just now we are too busy with the membership drive for the alumni chapter—plans for a housewarming—and for a few dances, card parties, smokers, etc., to worry over anything else. We have furniture to unpack—drapes to hang—business to get—and themes to write. But we can do all that—and a good deal more—because we feel that we are not only working for ourselves but for our fraternity and the future.

When our clubhouse serves you we serve ourselves—so come on *home*.

Wants International College Fraternities

INTERNATIONAL college fraternities as the means of spreading the gospel of brotherhood to bring order out of present world chaos and make right might by the force of unity of opinion, are suggested by Irving Bacheller, author and lecturer, in a recent number of the *Journal of the Academy of Political and Social Science*.

"It is the young who learn the seeds of understanding" he writes "and the common spirit must be sown in the minds of the young if it is to bear fruit. The heart of youth the world over is naturally open to generous impulse and friendly sentiment.

"Our college fraternities should lead the way. They have helped to bring the young manhood of our far-reaching Republic into brotherly accord. These growing and enlightened circles of friendship have established sympathetic relations between the sons of the North and the South, the East and the West, and given them a common devotion to principles that make for good citizenship.

"Now is their opportunity to enlarge their circles and set the rhythm of a new march toward the goal of a mutual understanding between nations. Let our strongest fraternities amend their charters and their constitutions if need be, so as to extend their vision across the shortened spaces of a new world.

"If their spirit is unequal to this task, another and a greater fraternity should be started, with chapters in the leading universities of America and Europe, bound by a common oath to the broad principles that make for human understanding."

Who could estimate the moral value of such a Panhellenic bond embracing the best young blood of the world, holding sessions on both sides of the sea and

making plans that look to the good of all, Mr. Bacheller asks.

"Who could measure the effect of our delegates going into friendly council with their brothers in Europe—eating with them, playing with them, conferring with them and finally, let us hope, agreeing with them as to the things which would widen the growing arch of their spirit "

Such a meeting, Mr. Bacheller believes, would be the first Parliament of Man.

"In it, I think," he continues "the blue bird of the nations would come to life. Slowly indeed, but surely, it would create the needed background for international peace and stop the confusion on the Tower of Babel.

"Not to be lightly thought of would be the habit, formed therein, of using the best word the tongue of man has spoken—the word 'brother'. One cannot call a man his brother without seeking to justify the word with conduct. It is a compelling word and I would use its magic for the healing of many ills."

(Interfraternity Conference, Committee on Publicity.)

Abbreviating Ideals

COMPARISONS may be odious, but there is nothing more offensive than abbreviations. To abbreviate the name of objects or places denotes a temperament that is sluggish or careless or disrespectful. And yet many fraternity men speak of their society by its initials or by shortening the name to some harsh, meaningless monosyllable.

This habit of lopping off the name is said to be an American trait born out of conditions of life that demand precipitate action and in which speed is classed as among the greatest of virtues. The fact remains that we go to the Y, attend the U, and are members of the T. P. A., A. A. A., the S. C. V., A. P. I., I. O. O. F., A. O. H., A. P. V. A., A. A. E., S. P. C. A., get news over the A. P. and U. services, deal with chain stores with letter names, and even eat prepared foods known by catch-letters.

Perhaps it is easier to say "Y" than "Young Men's Christian Association," but to say "Pi K," "Peake," "Pika," or "Pi Kap," does not save much time as compared with saying "Pi Kappa Alpha." Should there be any time lost in giving the full name of the fraternity it is recompensed in the dignity and respect it will add to the organization.

To sum up all that Pi Pappa Alpha stands for into Pi K A ignores the high standards, noble traditions, and progressive policies of the fraternity and places it on the same footing with any business club or institution in which membership is practically unlimited and for which a name means little or nothing other than to differentiate it from similar organizations.

Pi Kappa Alpha is too big to be diminished to Pi K A or any similarly lettered-phrase. The habit should be

discouraged. It is only through training from the beginning that any such shortened term for a fraternity can be eliminated, and if every chapter of every fraternity will frown upon the use of English letters for a Greek letter secret society, a greater respect for the meaning behind the Greek letters would be the result. If every Greek letter man and woman will call his fraternity or sorority by its Greek letters it will not be long before those outside will do likewise.

J. MARK LUTZ, *Omicron*.

Brother Smythe Said

About the

ST. LOUIS CONVENTION 1924

"I believe it will be the greatest convention Pi K. A. ever had. It'll be well attended—everywhere I go I hear Pi's making plans to attend. Your well organized plans, your unlimited facilities for entertaining and your happy choice of the Hotel Chase assures Pi K. A. of a successful convention and a grand, glorious big time in

Underwood Opens Texas Campaign==Appeals to South

Brother Underwood is an alumnus of Alpha Chapter.

OCONA, Texas, October 24.—Senator Oscar W. Underwood, of Alabama, formally opened his campaign for the Democratic presidential nomination here this afternoon.

“I am going to give the south a chance to select a southern man to carry the banner of democracy. The south must assert itself and I believe if the south asks, the great democratic north will recognize the right for you to carry the banner yourself.

From the platform of his train here he said:

“I have come to ask something of you; I have led the democratic party in both houses of congress for years. I am a southern man, bred and born. We are approaching the time when the democratic party must name the man to carry its banner in the next election. It has been eighty years since the south carried the banner of democracy. It has been eighty years since the south elected a president of the United States.

“If you don’t think I am the man to carry this banner send your delegation to the convention pledged for another southern man, but let him be a southern man.”

Are You a Fraternity Man?

Is he a fratter?"

"Certainly! Didn't you ever notice his frat pin?"

Quite a common question with a common answer, and yet, the simplicity of the conversation shows and illustrates our greatest weakness.

Because you are a fraternity man it is your duty to serve your fraternity, your chapter, and your brothers. *The brother that is made by the fraternity jeweler is the man that we do not want.*

Frequently our official jewelers develop a man who claims to be the "big show." We find this man wearing his regular fraternity pin loaded with the largest and most flashing jewels in existence; a large, conspicuous, clumsy fraternity ring; a beautiful dangling watch-charm bearing his fraternity crest and up in the lapel of his coat we see a recognition pin. When he offers us a cigarette he will ask us what we think of the crest on his cigarette case; when he smokes a pipe you can easily distinguish his fraternity crest on the bowl of it; when he fills the same pipe with tobacco he will take out a nice leather tobacco pouch and the fraternity crest will be on that; when he writes a letter he will use a fountain pen and stationery which bear his fraternity crest, and, if you read into his will, you will probably find a clause stating "that the crest of my fraternity be inscribed on my coffin."

A man of this type appears to be a real fraternity man on the surface but seldom, if ever, have I found a man in this class whom I cared to call "brother." He is proud of his fraternity—a million times more proud of himself.

A brother of his wears only his pin, probably not that

at times, and yet he is the most active man on the campus and has done the most for his fraternity. Everybody knows that he is a member of a fraternity—he is not forced to advertise the fact by dazzling and flashing his jewelery in everybody's eyes. And his brothers are proud of him and like him because he is an ideal fraternity man—and a real brother.

Every chapter possesses brothers of the two distinct types—one a parasite, the other a blessing. The former sucks his existence and good time out of his brothers, while the latter lives and enjoys himself with his brothers—the one thinks only of self, the other of his brothers and fraternity.

Too often we enter the bonds of brotherhood with our old pomp and individualism unchanged—we do not realize the dreams and ideals of the fraternity.

It appears in fraternity life, as well as in political life, that those that show and boast the most always have the least to boast about. It seems that simplicity mothers and guides the great and that the person that does something is never forced to tell people about it himself—he gets his advertising free of charge and effort.

If we are going to be real fraternity men, let's get away from the bravado and show part of it and take up the working end. If we can't be a real brother to every man in the chapter, something is the matter.

The fratrer and the club man are flashy fixtures representing flashy organizations—the fraternity man is a tool which should prove its worth to the brothers held together in the bonds of union, by serving and fighting for the fraternity.

M. WALTER NELSON, *Beta-Eta*.

To My Roommate

T'S seven years and more, old man,
Since the day we met at school
But years alone can never span
The breadth of friendship's rule.

We've but one purse, one bed, one board,
Know joy or grief together
And all is *ours* to spend or hoard
Through storm and sunny weather.

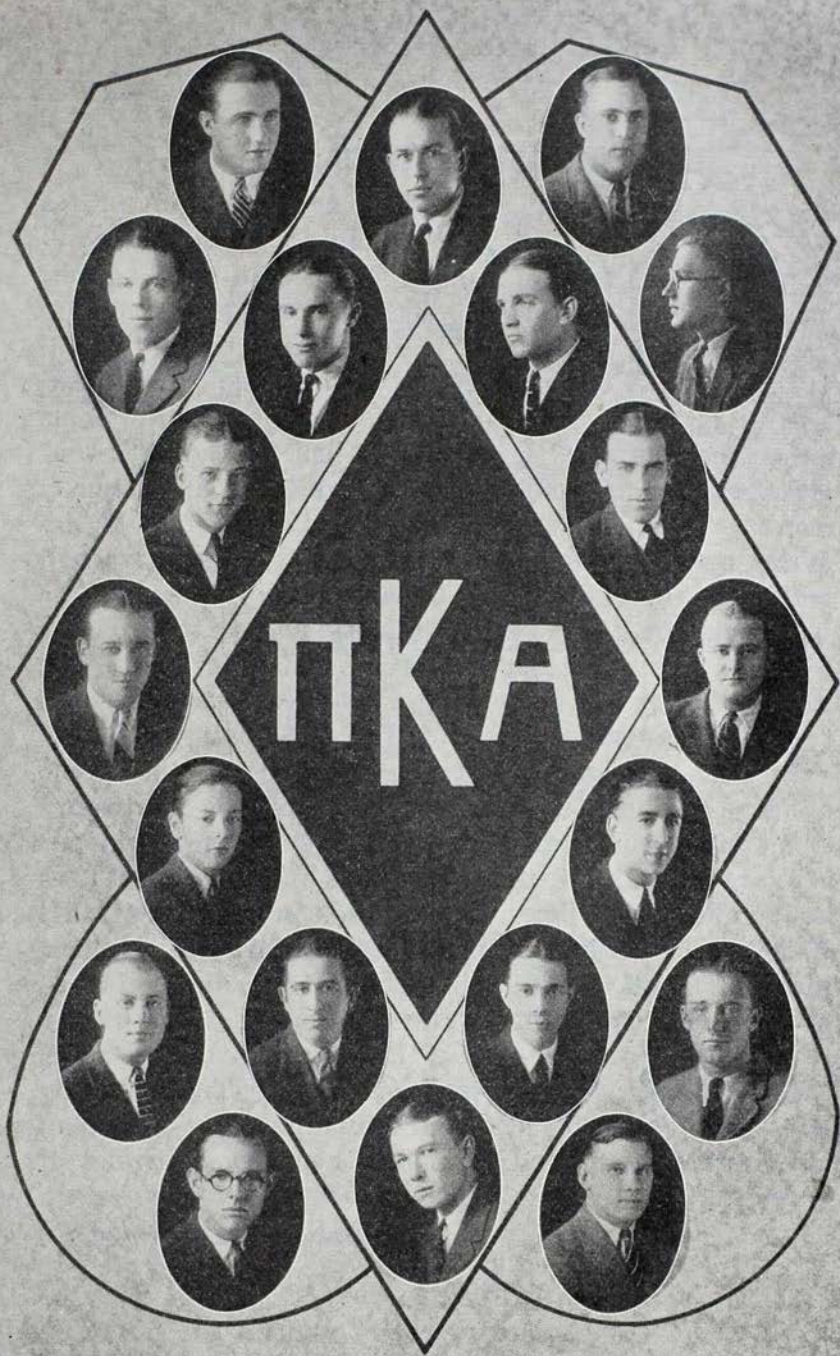

You use the calipers, I the pen,
What matters the job we take?
For all that counts is two young men
Each ready to give and take.

Though we say little as day by day
We tighten the bond between,
Yet a silent grip is the only way
To tell how glad we've been.

Sometimes our bodies are far apart
Our souls are touching still,
Time doesn't alter a faithful heart,
Nor can space confine the will.

Sea may separate, and space divide,
Death or disaster restrain,
But when I reach the "other side"
I'll look for my chum again.

"As a Man Thinketh"

S a man thinketh, so he is." If a man rates himself as a dollar a day man he will remain a dollar a day man until he dies provided he does not change his opinion of himself. So it is with any individual or organization as a whole. The fraternity is what every active member makes it. It is either the short and wide path to hell, or the path that leads to great and noble thoughts, high ideals and achievements. The ideas a man forms and the habits he acquires between the ages of sixteen and twenty-five will determine the kind of man he will be and the success he will make in life. The Fraternity will be one of the greatest factors in forming these ideals and habits. Let us say that it is conducted in such a way as bring out the best in a man.

In what light is the Fraternity regarded by the people at large? There are some who look on the Fraternity as merely a "club" full of vice and evil. A very large per cent are ignorant of its high motives and the good it does a man all through life. But we are coming to the front! It is up to Pi Kappa Alpha to lead the way to a higher plane of moral, social, and scholastic standing. Let us prove to the world that we are not in existence merely to advance the social life of its members but to teach them to revere God, to know what true friendship really is, to give them some idea of the functioning of a systematic organization, and to make them true citizens of America.

Pi Kappa Alpha Club At Camp McClellan

URING the recent R. O. T. C. Summer Camp at Camp McClellan, Anniston, Ala., a bunch of Pi's got together. It is almost needless to say more. About two weeks following the beginning of camp activities a meeting was held in the mess hall, a chairman elected, and a tentative program outlined for the duration of camp.

The following Friday a banquet was held at the Calhoun Hotel, and arrangements discussed for other social activities. Thru the good offices of Brother Charles Miller, a local Pi, we were able to obtain the Anniston Country Club for our dances, the first one to be held the next Friday. At this enjoyable occasion Miss Virginia Sproul was voted the "Dream Girl" and presented with a silver-backed hand mirror, having the letters "II K A" engraved thereon.

Ten days later, another dance was given, which was a fitting close to our camp activities.

We are greatly obligated to our Brothers Capt. Hugh Parker, and Lt. Emory who with their wives did every thing possible to make our social affairs successes.

Brother Charles Miller has expressed the desire that all Pi's who intend going to the R. O. T. C. Camp get in touch with him before leaving, and promises to make their stay more enjoyable, as he did for us this year.

The Pi K. A's., at Camp were:

Alpha Eta: Leslie Jackson, David A. Rambo, Charlton D. Keen, Steward L. Pomeroy; Zeta: Philip Jones; Mu: Van Kirk Bland, William Cherry, Jr., Frances La Motte, Robert M. Lynn, Joseph G. Miller, Melvin B. Nickles; Alpha Delta: Alf Carrol; Beta Kappa: Jasper Hunt, Alton O'Steen, William Tippens, Dickenson, Watson; Upsilon: Paul Crane; Psi: Francis Lumkin, Medlock; Alpha Gamma: Edward Hanson, Jr., Richard Ellender.

STEWART L. POMEROY.

Our New Freshmen

OW that the usual rushing activities are drawing to a close at most colleges throughout the country and pledge pins are resting firmly in the coat lapels of the picked men, many questions should be decided at once as to how these freshmen should be drilled to make real Pi Kaps. The freshman as a pledge owes certain duties towards the fraternity and certainly the fraternity owes the freshman just as much which must be kept in mind throughout the year, and its importance justifies and demands constant repetition and emphasis in the chapter activities.

One does not have to dig very deeply into his mind to clearly remember his first days at school. Nervous? Lonesome? Afraid? Green? Yes, and much more too. So don't be discouraged with the prep who does things a little strangely at first. Maybe he doesn't use "hair grease", hold his knife and fork correctly or wear bell bottoms, but a kindly word of suggestion now and then will help a lot.

It is this new way of doing things that holds back a lot of pent up energy and may keep a good man from activities for the first or even the second year but a quiet tip and little push from one who knows how things are being done will give the pledge an early start and make success possible. It takes schooling and hard drilling to make the varsity team, to become editor of the college paper or be a leader in any line, and the sooner the schooling is started, just that much sooner will the bigger things come. Too many new students think that college is a place to pass a required number of hours of work and do not realize the importance of other activities, such is the duty of his chapter—to make such things definite and possible.

The high school is the best training school in the world

but friends, classes and activities are all left behind when the doors close at graduation. New friends are made at college, new classes pursued, and new activities entered. The first will surely come, and quickly too, and the second are thrust upon every student. But for the last, the freshman must rely upon his own initiative and adaptability. But now the friends will help, and must help when a little encouragement and push are all that are needed to land him right in the midst of all that he desires.

Four years is a short time to accomplish a great deal at any school. Too soon does the freshman realize that he will soon be leaving for "parts unknown" and then regrets follow for what he should have done in previous years. Today's pledge is running the chapter tomorrow and is directly responsible for the reputation his fraternity holds on the campus. So start him in right his first year and the reputation he makes this year will benefit himself and the chapter for the other three years. If he shows promise along any line push him out. If he slips in some studies, a little coaching and friendly advice will do wonders. And above all, when he deserves it, give him encouragement.

The Significance of the Grip

HANDSHAKE is an open and frank recognition of friendship. It denotes the type of man back of it as does no other method of greeting. Particularly is this true of Americans. Take away from a wide awake American the significance of the outstretched hand and the straight forwardness of an American greeting is destroyed.

This should be appreciated by fraternity men more than by any other class. The grip of a brother should carry all the strength and loyalty of a fraternal bond. The handshake of Pi Kap with his brothers needs no interpretation; its significance is felt in the clasp. The fraternal strength of our grip depends upon its secrecy. For this reason care should be taken in giving and exchanging the grip. Just a moment of carelessness may reveal the clasp we cherish as brothers. It is a very easy thing, in an unguarded moment, to exchange the grip without covering. It is also a very possible thing to give the clasp to an outsider without realizing that we are doing it. Just such thoughtless errors weaken our bonds.

"An ounce of prevention is worth a pound of cure" so let's be sure, in the presence of outsiders to guard our grip zealously.

“Cooperation of Chapters”

PI KAPPA Alpha is growing fast. It is coming to be known more and more every day but there is no reason why it should not grow faster.

Co-operation of Chapters, Alumnus and Active, would mean a great deal to Pi Kappa Alpha. By co-operation of chapters is meant the communication between chapters in regard to new men.

Men are spreading. They may live in the East and go off to college in the West. They are going to schools of their own choice regardless of the location of their homes, those who can afford it. Men like this, especially Freshmen, are new to the place and alone and want friends.

Brothers who, knowing a boy who is going off to school, should find out what college or University he will attend and communicate with the chapter at that college giving all the information they can as to when he will arrive, name, character and such information as would be helpful to the chapter. Many good men are not especially noticeable in appearance, but when known well show up to be very noticeable in character. And character is what counts.

Pi Kappa Alpha wants quality before quantity. By co-operation of chapters Pi Kappa Alpha should grow in quantity and in quality at the same time.

Men who seem to be fine fellows come under the observation of the different chapters, but they have no record on him or information as to his standing and character. By the time this information is received the man may be lost.

Lets co-operate for the glory and prosperity of Pi Kappa Alpha.

EDITORIAL

While a fraternity magazine is far from being a book of verse an occasional poem shines out of its setting of more solid prose with an interest compelling luster. The human heart always responds to well-written prose but is kindled into a quicker, more intense fire by song.

Poems

It is true that bad poetry being a perversion of a noble art is akin to the criminal. Still most folk, including the Editor, are not critical, and respond to sincerity and deep feeling even though the canons of poetry writing may be deeply outraged. So let us have more of your poetic effusions, Brothers in Pi Kappa Alpha. There are few of us have not at least once in our lives burst forth into song. In the present issue are two very charming bits of poetry by Arthur John Follows, of Chicago. Let us have more like them.

It is interesting to watch the trend of fraternity journalism. Zeta Beta Tau and in particular Phi Epsilon Pi have gone far from conventional standards of fraternity journalism in their latest is hardly distinguishable in form and general style from such magazines as the New Republic and Nation.

While we may doubt the expediency of the Phi Epsilon Pi's idea in adapting their magazine so greatly to the taste of the general reader such as is, unfortunately, the average alumnus of any fraternity, the Editor certainly admires their enterprise and the literary ability shining through the pages of their journal. While we may question whether they have not eliminated too much concerning the affairs of their fraternity and its individual chap-

ters, we must do so with the feeling that their experiment is both novel and commendable from many standpoints.

While we cannot guarantee all of the features advertised in the article on page 7 of this issue particularly as the Editor is now married, we can heartily second their prophecy that "if all that **The St. Louis Convention** doesn't come off something just as good will." Seriously, the Editor has been to St. Louis, and its hospitality leaves nothing to be desired; the City is one that must be visited before you can say that you have seen America. Those who know our St. Louis, Brothers require no greater guarantee of the best convention that Pi Kappa Alpha ever had.

Again we find the question of abbreviating our name brought forth into the light of discussion in an article on page 16 of this issue. The Editor agrees with Brother Lutz but is afraid that as long as American characteristics remain unchanged that our name will be liberally abbreviated, and the Editor does not look forward to any early change in said characteristics. So that, perhaps, the best thing to do in the emergency is to adopt one abbreviation which will be least objectionable and see that the abbreviation adopted and no other is used throughout the nation.

The reader is referred to an article on International College Fraternities on page 14 of this issue. Whatever the merits of Mr. Bacheller's plan it is thought compelling. Whatever the remedy, **A Suggestion** there can be no denial of existing conditions. If College Fraternities are capable of producing the result Dr. Bacheller believes them to be they should lose no time beginning their beneficent work. The plan deserves thoughtful consideration by every fraternity man.

ALPHA

University of Virginia

From the present indications the University of Virginia will have one of the most prosperous sessions it has had for many years. The enrollment at this time is much larger than ever before for the same time of the year.

The prospects for having a winning team in football seems bright. Eleven letter men have returned, and with the able assistance of the splendid coaching staff, lead by Coach Neale, there is no reason why Virginia should not finish up undefeated. Not only in football, but also in boxing and track Virginia has a bright outlook. Only four men on the track squad of last year have not returned. In boxing Virginia has seven veterans from last year's undefeated team. The outlook for the other teams are just as bright.

The following transfers have affiliated with Alpha: Bryant, J. T., Beta; Keeney, A., Omega; Rogers, J., Sigma; Bennett, C. R., Alpha-Pi, Gillespie, Iota.

Bryant, Keeney and Rogers are in the Academic department. Bennett, who received his B .A. last year from Howard College, Birmingham, is in the Graduate department from which he will receive a Master of Arts degree. He is also instructor in biology. Gillespie is from Hampden-Sidney and is taking law here.

BETA

Davidson College.

Davidson College opened this year with an enrollment of 577 students, the largest in her history.

The old men who returned may notice several changes on the campus. A beautiful new dormitory is nearing completion to replace the old Watts Hall which burned last spring. The Richardson Athletic Field is also nearing completion which, when finished, will be one of the finest and best equipped athletic fields in the two Carolinas and will rank among the foremost of the South. This field includes two gridirons, a baseball diamond and a quarter mile track. A separate athletic field is also being built for the Freshmen.

With the old Davidson spirit so evident on the campus, Beta is by not means sleeping. We returned sixteen men this Fall. In this group we have leaders in all branches of college life. On the gridiron, among the prominent student-body officers, in the classroom and in the Literary Societies we are well represented.

At a recent meeting of the Chapter, Hillhouse resigned as S. M. C. on account of his strenuous duties as student-body president and other phases of college activities. McKellar was unanimously elected to succeed him.

The brothers who returned this year are as follows:

T. B. Brown, Greensboro, N. C.
R. H. Littlejohn, Charlotte, N. C.
J. C. Hunt, Lexington, N. C.
J. M. C. Covington, Lauringburg, N. C.

It was with great surprise and sorrow that we learned that McCall would not return to college this fall to get his degree. McCall would have been a very important man on the campus this year, having been elected to the presidency of the senior class, the editorship of the college annual, the presidency of the Y. M. C. A., and other minor positions. J. W. Ellett, S. M. C. of last spring, also surprised us by not returning. Melson received an appointment to the United States Naval Academy, and is at present in that institution. Bruner transferred to William and Mary, and J. W. Hundley was lost by graduation last summer.

W. O. Carver, Jr., has returned to the University and J. E. Carver and R. E. T. Lewis, after a year of school teaching, have become students again. Hundley, who received his degree last summer, is attending the Medical College of Virginia, in this city, and is a regular attendant and helpful adviser at the chapter meetings. Lutz is editor-in-chief of the University weekly publication.

At the fall elections the following officers were chosen to lead the chapter: S. M. C., J. E. Carver; I. M. C., J. M. Lutz; S. C.,

R. E. T. Lewis, Th. C., J. T. Frazier; M. S., J. U. Tatum; M. C. C. H. Sheppard. Several alumni have visited us, among them being brothers A. H. Blankinship, G. M. Blankinship, I. T. Duke, Warren Tiller, R. Taylor Coleman, and B. M. Bruner, while J. C. Williams has attended the meetings regularly. Brother Shelburne, of Alpha Pi, passed through the campus recently.

PI

Washington and Lee University

The year has opened with the following old men back:

Harry Lysle Shuey, Fordwick, Va.
 George Erdman Burks, Louisville, Ky.
 Clarence Edward Pfau, Louisville, Ky.
 Nelson Weiler Burris, Mt. Vernon, Ohio.
 Clarence Watson Meadows, Beckley, W. Va.
 George Cooley Wilcox, Saginaw, Mich.
 Walter Clarke Schenck, Norfolk, Va.

Although only six men have returned the term has started with eight good pledges, with several other good men in prospect. The present Freshman class has been unusual at Washington and Lee, furnishing a good many men of fraternity caliber.

The chapter wishes to announce to the fraternity at large the initiation of George C. Wilcox, Saginaw, Mich.

We take great pleasure in introducing to the fraternity the following pledges:

William V. Pierce, Kingsport, Tenn.
 William A. Rector, Morristown, Tenn.
 Thomas P. Foley, Pineville, Ky.
 Thomas L. Harris, Concord, N. C.
 William R. Clarke, Hopkinsville, Ky.
 John Cooper Gill, Abingdon, Va.
 Paul W. Hyde, Buchanan, Va.
 Grossett W. McRae, Mobile, Ala.

Among the 'goats' there is somewhat diversified talent. Rector is playing full-back on the Freshman team, Clark hopes to turn his knack for drawing to the account of the **Mink**, McRae plays basketball, Foley is volunteering his services to the "Y", Pierce is going to try for a position as pianist with the "All-Southern Seven," and Harris is trying out for the Troubadours.

Among the old men, George Burks, and Meadows are back for the Troubadours, with good chances of making places in the fall production.

Norvell and Jerry Stone have announced their intention to re-

turn to the university in February, as well as pledge Reed Steele, who will be initiated on his return. Steele is a football player and made his letter in crew last year, his first year out.

We sincerely hope that all chapters of Pi Kappa Alpha will enjoy a year fruitful in accomplishment and real pleasure.

G. C. WILCOX.

TAU

University of North Carolina

The total registration for the fall term will number over twenty two hundred with about eight hundred freshmen included. Tau has eight old members back with one affiliate and four new men.

Many improvements have been made on the campus during the past summer. Two new class room buildings were opened at the beginning of college and four new dormitories are under construction. The University is growing to the extent of about 400 students per year at the present time.

Possibly the greatest improvement concerning fraternities is the new pledge system. In place of the old one year rushing rule, freshmen cannot be pledged until they have completed three courses which can be easily done by the Christmas Holidays. These men may be initiated at the beginning of the Spring Term if they have passed three additional courses. This system is a great improvement over the old and should prove satisfactory for all concerned.

Tau wishes to introduce the following new brothers:

Robert Elroy Buck, Jr., Charlotte, N. C.
James Lide Coker, III, Hartsville, S. C.
William Minor Hicks, Oxford, N. C.
Thomas Manly Whitener, Hickory, N. C.

The following brothers have returned for the year:

William Brown Hadley, Mt. Airy, N. C.
William Forest Fulton, Winston-Salem, N. C.
Augustus Washington Knox, Jr., Raleigh, N. C.
Daniel Harris Penton, Jr., Wilmington, N. C.
Hal Avon Davis, Charlotte, N. C.
Payson Dennis Carter, Chapel Hill, N. C.
Straughn H. Watkins, Henderson, N. C.
Mason William Gant, Jr., Greensboro, N. C.

Charles H. Neal, Reidsville, N. C. affiliates with us from Alpha Epsilon.

The following officers will serve for the Fall Term: W. B. Hadley, S. M. C.; W. F. Fulton, I. M. C.; Hal A. Davis, Th. C.; M. W. Gant, Jr., S. C.; A. W. Knox, Jr., M. S.; C. H. Neal, M. C.

W. M. GANT, JR., S. C.

We are pleased to announce the affiliation of C. W. Allgood of Alpha-Pi chapter.

Our pledging season was most successful and we wish to present to the fraternity, the following pledges:

J. F. Shamblin, Rome, Ga.
W. O. Baskin, Carrollton, Ga.
G. T. Norwood, Birmingham, Ala.

S. W. Oliver, Dadeville, Ala.
A. D. Hoskins, Montevallo, Ala.
H. E. Wallace, Shawmut, Ala.
C. Hendricks, Decatur, Ala.
S. Lynn, Decatur, Ala.

Auburn's football squad this fall looks very encouraging and although the team will not be as heavy as last year, it will be much faster. Upsilon is well represented by Crane, Ollinger, Rox, McNeill, Hill and Knight. Out for the "rat" team, we have Whatley, Shamblin, Wallace, and Baskin, who are all working hard for positions.

Upsilon's dream of a dining hall has now become a reality and

everybody is proud of it. The basement of the house was made for this purpose and with a little interior decorating, we now have a very pretty dining room. Warner was elected Steward. The whole house is in fine condition.

The enrollment of Auburn this year is the largest in the history of the college. Many notable improvements have been made during the summer; the most important of which is the completion of a handsome four-story dormitory, which was badly needed.

Pi Kappa Alpha has seven men on the faculty now. They are Hugh G. Grant, J. W. Tidmore, Wm. Hardie, E. S. Winters, C. R. Saunders, A. M. Saunders, and D. B. Tidmore.

Upsilon wishes all II's and Sister Chapters a most prosperous year.

PSI

North Georgia Agricultural College

Psi chapter has indeed been hit hard, by the loss of brothers through graduation and those attending other colleges this year. Those returned are:

V. F. Hollingsworth, Atlanta, Ga.

 J. R. Hines, Franklin, Ga.

We take great pleasure in announcing the initiation of:

William Marvin Slade, Meansville, Ga.

 Lawton Payton, Mt. Airy, Ga.
 W. E. Reid, Midville, Ga.

Hawkins, who was forced to leave college last spring on account of sickness at home, is back with us this year to stay until the 1st of December. Hawkins is our only representative on the football squad, this year.

Medlock is manager of the football team, V. F. Hollingsworth, is Assistant Business Manager of the college annual for 1923-'24. He is also Junior class editor on the staff of the college publication.

We were honored by a visit from brothers Bradberry, Pendley

and Brock of Athens soon after college opened. Their visit was enjoyed and greatly appreciated by all of the brothers.

Brothers who were elected and appointed to serve as officers for the first term are: V. F. Hollingsworth, S. M. C.; C. E. Medlock, Th. C.; W. B. Hawkins, Jr., I. M. C.; J. R. Hines, S. C.; K. O. Hipp, M. C.; W. F. Hollingsworth, M. S.

Psi extends hearty wishes to all of the chapters for a prosperous year.

OMEGA

Robert Montgomery, our football star of last year has been holding down his old position on the varsity at guard. Neal and Conway are making strong bids for berths in the backfield. While on the Freshman team four of Omega's pledges Smith, Edger, Williams, and Lawson are showing good form.

Omega extends to all her sister chapters cordial wishes for a successful year.

STANLEY COURTNEY, M. S.

ALPHA-ALPHA

Trinity College

Trinity College opened September 20 with a record enrollment of over a thousand.

Alpha-Alfa's prospects are indeed bright. Only one Brother who was with us at the close of last year failed to return. Tom Neal has entered the law school and has also accepted a position as Freshman Coach. Simpson is captain of the varsity football squad, and Crute is trying for a place on it. English and Shute are showing up well. J. B. Harris, is manager of the team as well as President of the Student Body.

The Chapter room has been kalsomined, painted and generally renewed. New furniture has been purchased.

At the last chapter elections the following men were elected to offices: J. B. Harris, S. M. C.; H. A. Crute, I. M. C.; Geo. P. Harris, Th. C. and S. C.; S. W. Ruark, M. S.; and B. D. Orr, M. C.

At a recent meeting of the Chapter, Wm. Latta of Wilmington, N. C., was initiated into the Fraternity. We take pleasure in introducing him to the Fraternity at large.

The names and addresses of the members who have returned to college are as follows:

R. B. Babbington, Jr., Gastonia, N. C.

ALPHA-GAMMA

Louisiana State University

Alpha-Gamma begins the year with four old men and one affiliate from Eta as follows:

James Roy Fuller, Dubach, La.
Noonan Albert Prince, Lake End, La.
Wallace Richmond Ellender, Bourg, La.
Holt Harrison, Baton Rouge, La.
Alexis Morgan Brian, New Orleans, La. from Eta.

Football looks mighty promising this year with the number of old men back and such a coaching staff as Mike Donahue assisted by Moon Ducote and Tad Gormley. The squad showed great improvement in the opening game with Louisiana State Normal over the previous year.

Plans to build homes on the campus at the new University have begun to materialize and take definite form. All fraternities here are making drives for funds for the new homes. Alpha-Gamma launched a campaign several years ago and the alumni have responded to the call nobly.

Alpha-Gamma wishes her sister chapters a most prosperous year.

N. A. PRINCE, M. S.

ALPHA-DELTA

Georgia School of Technology

Alpha-Delta has begun her twentieth year with every reason to believe that it will be a very successful one. The following brothers have returned:

Dawson Bates, Decatur, Ga.
Alf. Carroll, York, S. C.
William Carroll, York, S. C.
Jack Crowther, Savannah, Ga.
Jack Cope, Savannah, Ga.
Harold Elder, Watkinsville, Ga.
Frank Exley, Savannah, Ga.
Castex Hollingsworth, Statesville, N. C.
Lawson Johnson, Griffin, Ga.
Edward Johnson, Savannah, Ga.
Frank McElwee, York, S. C.
Dumas Morgan, Carrollton, Ga.
Albert Phipps, St. Petersburg, Fla.
John Snead, Savannah, Ga.
Gus Merkle, Savannah, Ga.
Joe Thompson, Greenville, Texas.
Ernest Tippetts, St. Petersburg, Fla.
Weyman Willingham, Atlanta, Ga.
George Word, Atlanta, Ga.
Charles Virgin, Montgomery, Ala.
Paul Welch, Atlanta, Ga.
We welcome this year two affiliates:
Harold Edward Ryman, Upsilon,
Charlton David Keen, Alpha-Eta.

Parker has completed his course in Civil Engineering and will probably locate near Atlanta.

During the summer a great many improvements were made in the chapter house. The lower floor was done over, and old furniture renewed, and new furniture added.

Dwight Perrine has returned to Tech, instead of transferring to the Missouri School of Mines. Ted Yon is also expected to enter school.

Gus Merkle, star tackle of last year's freshman team, is playing that position on this year's varsity and Morgan is proving a dependable half back on the squad.

The Pan-Hellenic ruling prevented early rushing but many fine recommendations we have should mean an excellent group when the restrictions are off.

Alpha-Delta wishes her sister chapters the greatest success for the coming year.

JACK COPE, M. S.

ALPHA EPSILON**N. C. State College**

About twelve hundred students have registered at N. C. State College for the fall term. A number of new instructors have been added to each department and the departments have been reorganized by our president Dr. Brooks and the board of trustees.

State expects to make a good showing in athletics this year. Our old athletic field has been greatly enlarged and a new one for the freshmen is nearing completion. Also plans for a \$200,000 gymnasium have been completed. Alpha-Epsilon is well represented on the football squad by Randolph Logan.

B. Lattimore, S. Pierson, F. H. Kendall, and G. E. Jones did not return to college this fall. We feel the loss of these brothers deeply, but expect to have all of them back for the spring term.

We are glad to have back with us this year W. H. Puckett and J. S. Geitner. Neither of these brothers were able to return to college last year, so we are doubly glad to have them with us again.

We have just finished outfitting and decorating a chapter room. This will fill a long felt want. Heretofore college regulations have not permitted chapter houses or chapter rooms on the campus. Alpha-Epsilon has started a fund for building a chapter house and plans for the same are being made, but we can do nothing definite until fraternity houses are permitted at State.

The returned brothers and their home addresses are as follows:

J. J. Chamberlain, Raleigh, N. C.
A. B. Quinn, Shelby, N. C.
W. H. Bogart, Greensboro, N. C.
L. H. Cook, Red Springs, N. C.
G. R. Logan, Shelby, N. C.
H. E. Kendall, Shelby, N. C.
W. H. Puckett, Smithfield, N. C.
J. S. Geitner, Hickory, N. C.

Alpha-Epsilon is looking forward to a splendid year and wishes all of her sister chapters as much success as she hopes to have herself.

H. E. KENDALL.

ALPHA-IOTA

Millsaps College

The opening of Millsaps College finds a small but determined and capable group of men ready to carry on for Alpha Iota Chapter.

The chapter roll at this writing bears these names:

W. A. Bealle, Greenwood, Miss.
 V. E. Chalfant, Augusta, Ark.
 T. M. Davenport, S. M. C. Jackson, Miss.
 H. H. Knoblock, Jackson, Miss.

 Pledges are:

Frank A. Calhoun, Mount Olive, Miss.
 J. M. McKeown, Silver City, Miss.

Three men are going out for football: Davenport, Bealle, and Chalfant. Their standing is shown by the fact that every one of them took part in the first game played by Millsaps.

On the staff of the **Purple and White**, Millsaps' weekly paper, are Knoblock and Davenport; Chalfant is circulation manager. Davenport was recently initiated into the Kit-Kat Club, local chapter of the Honorary literary fraternity Sigma Upsilon, in which we are now represented by two members.

The chapter is glad to announce its new address as 1359 North West Street. A comfortable eight room house has been secured fronting on the campus which is more convenient than any chapter house occupied in recent years. Any visiting II K A's will be welcomed there.

With best wishes to our sister chapters,

H. H. KNOBLOCK.

ALPHA-KAPPA

Alpha-Kappa is holding her own in school activities this year.

Baker was elected to the professional engineering fraternity, Theta Tau. Mills was elected to the Satyrs, the honorary sophomore society. Kent was elected to the Pipe and Bowl Club. Alpha-Kappa is the only organization on the campus with a quota on the Missouri Miner, the School Paper. Baker is assistant editor, Ellison is advertising manager, and Underwood is circulation manager.

Fisher won a letter in track last spring. An injury early in the season last year prevented him from making the football team last year. This year he has been showing up very well and has a position in the back field practically assured. Berry and Freeman are also out for the team and both have a good chance of seeing some action before the season is over.

At the fall election, the following were elected or appointed to serve for the semester: Cathcart, S. M. S.; Wright, I. M. C.; Knight, Th. C.; Schaefer, S. C.; Baker, M. S.; Kent, M. C. Griffin was appointed editor of the Alpha Kappa Kapers. Wright is freshman Mentor.

During the rush week several of the old men came back to visit and renew old acquaintances. Norton Smith was down from Kansas City; Bill Tandy came over often before he left to attend Vanderbilt University; Ted Simons and Harold Boyd were here and both expect to enter college again after Christmas; and Lester Bailey stopped over for several weeks on his way to Yale University.

The following brothers have entered the University this semester and are planning to affiliate: John Duncan, John Nelson; Foster Boop; Kent Jameson, all from Oklahoma University; and Virgil Langford from Kansas University and William Boatwright, from Arkansas University.

Brother Maxwell and guest stopped at the house on their way back to the University of Pennsylvania long enough to attend the festivities of the first University mixer.

Missouri was fortunate to obtain as her new president this year, Dr. Stratton D. Brooks, formerly at the University of Oklahoma; Chester L. Brewer, of the University of California, as Director of Athletics; and Gwinn Henry, of the College of Emporia, Kansas, as head football coach. With these new influences working, old Mizzou is looking forward to one of her greatest years in an educational way and as a revival of physical educational activities.

McAnaw, who was a letter man in 1915-16, has returned for his degree and at the start of the season is holding down a place on the first eleven, while Pledge Thomas is performing spectacularly on the yearling squad. Brodnax is at the head of the Masons this year, Cloud has been pledged to Sigma Delta Chi, Killion, Casteel, Voss, Elliott, and Fennimore are cadet officers in the R. O. T. C. Taylor and Cunningham are laboring diligently on *The Showme* staff, and Brown is playing in the University band, while Balling and Pledge Ferguson are doing their stuff in the Quadrangle Orchestra.

ALPHA-SIGMA

University of California

Alpha Sigma takes pleasure in announcing the following new members:

Roy Morphy Halsey, Dinuba, Calif.
Irving Henry Thomas, Los Angeles, Calif.
John Delbert Sarber, Long Beach, Calif.
Charles Stanwood Haley, Oakland, Calif.
Robert Edwin McCarthy, Bakersfield, Calif.
Earl Frank Jabs, Anaheim, Calif.
Benjamin Johansen Winslow, Alhambra, Calif.

Many of you have probably read of the disastrous fire in Berkeley, which came so near destroying the whole city. We were fortunately located as to escape; but the home of our beloved Mother Camper was totally destroyed, and the fire spread so rapidly due to the wind, that we were able to save nothing. Of all the treasures that she has accumulated in recent years, including fraternity records, pictures, mementos of various happy occasions in her life; not to mention her fine home and all that it contained, nothing now remains but a heap of charred and unrecognizable ashes. This was not our only fatality. Brothers George Marsh, (District Princeps) and George Clark, who had their homes on the same side of town, were completely burned out. Fortunately, they did not own their own houses, but their loss was great nevertheless.

Of the activities of the old members, Gooch has again made the Varsity football squad; and Huovinen looks to have another big

season in basketball this year. Smith and Young are taking up their duties as Junior Basketball and baseball managers, with bright prospects for the Senior managerships next year. Abramson, Loomis and Ross are members of the Glee Club that successfully toured Japan this summer. Parry is trying out for Yell Leader. Of the new men, Earl Jabs is regular fullback on the Freshman football team; Irving Tomas is State Champion in the 880 yd., run, and is a bright luminary on his freshman track squad.

We are now in the third round of the Intra-mural baseball series, and still going strong. We have already gotten the cup in this annual event twice, and if we can win it this year, it will be ours permanently. Alpha Sigma's Varsity looks to be the best in years.

Our magnificent new Memorial Stadium is almost completed. It has a seating capacity of eighty thousand, and will be used for the first time for the Big Game with Stanford University on Nov. 24. California has not lost a football game for three years, and from all indications this will be the fourth.

Following is the list of members returned to college:

C. M. Small, Tilamook, Oregon.
 W. J. Shaw, 2324 Piedmont Ave., Berkeley, Calif.
 J. C. Robb, 2324 Piedmont Ave., Berkeley, Calif.

ALPHA-UPSILON**New York University**

The football season has started and Alpha Upsilon is represented by Doyle, Rockfeller and Carlson, on the Varsity Squad. The University and Chapter both miss Weatherdon who was the mainstay of last year's eleven and is now lost to College athletics by graduation.

Cross-country track is now under way and we are represented by Captain Fred Yates and pledge Lubbin, and last year's captain, DeLassiot.

We start this year off with a good representation in college activities. Besides the aforementioned brothers we have the following representation: Kavanagh, President A. A.; Cullen, Captain of Track and member Student Council; Keenan, Secretary Student Org. and member Student Council; Yetter, Captain Cross Country; Good, President of Y. M. C. ALPHA-PHI**Iowa State College**

Under the leadership of S. M. C. Powers letters were written all summer long to actives and alumni and every member was

back a week or two early to get a flying start. The house was put in shape from top to bottom. Rushing was hard this year with the competition of six new houses.

We introduce our new pledges:

- M. E. Harding, Charles City, Ia.
- E. J. Mackey, Chicago, Ill.
- K. Hartley, Salem, Ia.
- D. E. Tracy, Tracy, Minn.
- R. Banghart, Storm Lake, Ia.
- C. C. Hickey, Ames, Ia.
- R. B. Sheldahl, Ames, Ia.
- B. A. Pettit, Grand Junction, Ia.

Twelve old members have taken their places as a nucleus for this year's activities:

- F. Powers, Charles City, Ia.
- W. T. Lawrence, McIntosh, S. D.
- C. B. Silletto, 3515 4th St., Des Moines, Ia.
- I. S. Lemley, Grinnell, Ia.
- C. F. Bartels, R. R. 2, Dubuque, Ia.
- R. Wilhelm, Davenport, Ia.
- W. R. Wright, Audubon, Ia.
- E. G. Wernentin, 624 W. 14th St., Davenport, Ia.
- O. E. Overseth, Canton, S. D.
- C. G. Helming, Waukon, Ia.
- W. D. George, 1230 Lincoln Ave., Dubuque, Ia.
- E. J. Lage, Harlan, Ia.

The college year was officially opened Sept. 26 with an enrollment even larger than last fall and from early predictions the record of 5,000 will easily be reached. A tuition fee of \$30 per quarter was started this fall for the first time in the history of the college.

Football prospects look brighter than ever before, not only due to the entire reconstruction of the athletic situation but also due to the wealth of material at the call of Coach Williman. Six conference games will be played, Kansas, Washington, Grinnell, Missouri, Nebraska (Homecoming, Nov. 17) and Drake which means some hard work for the squad. On Oct. 6 the team also goes to Minnesota for the first time in many years. Alpha-Phi has Brother George out for practice. Last spring he was elected Captain of the Baseball nine and now shows promise of winning laurels in football.

Alpha-Phi will open her social activities for the year at a Hallowe'en Party at the Country Club on the evening of Oct. 20.

O. E. Overseth who received his Master's degree in soils in the spring has returned this fall as a member of the faculty and will work for a doctor's degree in the soils department. He was

also honored in the spring by being one of a select few to be chosen as a member of Gamma Sigma Delta, honorary agricultural fraternity.

Fred Powers will again represent on the engineering council as vice-president besides his many other campus activities.

Best wishes to all sister chapters for a most successful year.

CHAS. B. SILLETTO.

BETA-GAMMA

University of Kansas

Beta Gamma is mightily pleased to report that twenty-one of its old men returned to open the chapter house after the summer's vacation. They are:

Richard Becker, Cherryville, Kansas.
Fay Bennett, Topeka, Kansas.
Ellis Bever, Independence, Kansas.
Justin Bowersock, Lawrence, Kansas.
Ralph Brady, Independence, Kansas.
Francis Brown, Kansas City, Missouri.
John Charvat, Phillipsburg, Kansas.
Maurice Crane, Parsons, Kansas.
Frank Fanswerth, Douglass, Kansas.
Thomas Grogger, Kansas City, Missouri.
Webster Hallett, Nevada, Missouri.

Robert Hill, Pittsburg, Kansas.
Donald Huddleston, Oskaloosa, Kansas.
Ralph Jenkins, Lawrence, Kansas.
Gerald Keesee, Topeka, Kansas.
Harvey Langford, Hutchinson, Kansas.
Walter McAdow, Hiawatha, Kansas.
Virgil Miller, Long Beach, California.
Howard Rooney, Fairview, Kansas.
Homer Smith, Salina, Kansas.
Doyle Whitman, Salina, Kansas.

With this fine turnout, the chapter was able to put on a highly aggressive rush week, and succeeded in placing the little white shield on twelve men, whom Beta-Gamma proudly presents:

Beverly Burhans, Kansas City, Missouri.
E. H. Bachman, Paola, Kansas.
Thomas Cook, St. Joseph, Missouri.
Howard Crawford, Atchison, Kansas.
Charles Darville, Hiawatha, Kansas.
Charles Doornbos, Eldorado, Kansas.
Carl Kretsinger, Okmulgee, Okla.
Merlin Sparks, Kansas City, Missouri.
Stewart Stout, Fort Scott, Kansas.
Paul Swanson, Kansas City, Missouri.
Jack Talbott, Kansas City, Kansas.
Donald Taylor, Ottawa, Kansas.

Most of the frosh have already entered into campus activities of one form or another. Crawford, Stout, and Taylor are all out for freshman football and are holding their berths on the squad in the face of keen competition. Kretsinger has succeeded in lining up with the University Orchestra, and in addition is out for freshman basketball. Swanson and Stout are our representatives in Sphinx, frosh honorary organization.

Kansas starts the football season with comparatively few letter men back, but according to Coach "Potsey" Clark, a wealth of good material is at hand and we are looking forward to a good season in spite of some handicaps. Jenkins and Farnsworth have both made positions on the squad and have better than a fighting chance to land "K's".

Jim Austin, who was elected S. M. C. last spring, was unable to return this fall, and Miller has been elected to pilot the chapter during the fall cruise. Francis Brown was elected Pan-Hellenic delegate in the absence of Dennis. Smith is our representative in the Owls, junior society. Webster Hallett has pledged Phi Alpha Delta, professional law fraternity. McAdow is a Pi Epsilon Pi pledge, the University pep organization.

We would like to make the usual "home-coming" invitation to our alumni just a bit stronger than it has ever been before.

Mother Wilmot joins us in hoping that 1923-24 will find the bonds between the old boys and the young drawn very much closer.

HOMER SMITH, M. S.

The Chapter House has been rejuvenated during the summer months. The porch has been extensively rebuilt, while the house itself has been given a coat of paint. The brothers have also

done some thorough cleaning both inside and outside, and the result was a revelation to all.

ALBERT C. KESKE, M. S.

BETA-ETA

University of Illinois

Beta-Eta is fortunate this year in having an exceptionally large number of brothers back. C. B. Bissell and C. O. Hoopes received their degrees and it is unnecessary to say that we will miss them. The Chapter has lost but eight men from graduation and from all other causes, and the twenty-eight men who have returned look forward to a good year for the Chapter. At the present writing college is just beginning and rushing is in full swing. The outlook is promising, to say the least, thanks to the functioning of an efficient Committee and the cooperation of alumni.

Four men from the house have been back in Ithaca for a month for early football practice. Two of these, Cassidy and Kearney, are now in the Varsity line-up. The veteran Cassidy is still in his old position as half, while Kearney, who begins his first year of play, is at left tackle.

Cross-country work has also begun, and Crozier and Marchand are both to be seen in action. Flynn is out for the managerial competition for Track, and is hard at work, having been at it in town for two weeks.

The chapter enjoyed visits from Brothers McGahan and Peck

at the beginning of the college term, and urges other alumni to return more often.

Beta-Theta extends best wishes to her sister chapters.

Alumni of Beta-Kappa will be glad to learn that a permanent Alumni Association of Emory University has been formed which will unite all former students of all Schools of the University in one body. Every effort is now being made to correct and revise the list so that a Directory can be published. Emory Clubs will be organized thruout the country.

Beta-Kappa sends best wishes to all sister chapters, for one of the most prosperous years in the history of brotherhood.

BETA-LAMBDA

Washington University

Despite the fact that Beta-Lambda lost ten men by graduation and five men by failure to return to college we have enjoyed a very successful rushing season and wish to introduce to the fraternity at large the following pledges;

Urban Chuse, East St. Louis, Ill.
Theodore Finley, Cape Girardeau, Mo.

Smith has quite a reputation as a debater and is also

interested in literary work. Weddell is a letter man in football and is now on the freshman squad. Sparling was a musician of note while he was in Military School.

The activity list of our active members is by no means meager. Spreitzer is in the Mandolin Club. Semple is a member of Phi Alpha Delta, and Quo Vadis and is pledged to Pi Epsilon Pi, and is on the Varsity football squad. We are going to do all that we can to assist Alumnus Alpha Nu in making this the best convention in the history of the fraternity. At this time we wish to extend an invitation to each visiting brother to visit us at our rooms at the university.

Texas' prospects for football are very good this year and we are looking forward to a successful season. The squad is hard at work and showing up well under the able guidance of our new coach, E. J. (Doc) Stewart. Stewart, who comes to Texas with a very successfui record, has already won the faith and confidence of both the team and the student body.

Luhn and Pledge Esquivel are out for ends this season and both men have good chances of making letters.

Norman Bartling, Portland, Ore.
Marley McKay, Vancouver, Wash.
Newell Post, Orland, Calif.

Alumnus Alpha Sigma chapter has aided us greatly in our rushing this fall; both by looking up men who were coming to college and making it possible for us to meet them, and by sending brothers Vernon Duncan, Walter Marquis, Edward Salstrom, Gordon Duncan, and Herbert Stewart to the chapter house for a week to help with the active rushing.

Our new chapter house, in which we have been living for a year, was repainted; and since it was kept open through the summer we returned to find it in splendid condition.

We hope that all our sister chapters will have a pleasant and prosperous year.

ROBERT WILKE, M. S.

Donald Jones is expected to show the way to other Conference pole vaulters on the indoor track team this fall. Beta-Xi will have to work hard to equal their record in interfraternity athletic competition. Last year, four cups were won in fraternity meets, and we expect to do well in basketball and repeat our last year's success in track.

We were sorry that some of last year's men did not return. Robert Ashe is with us again, but he has gone over to our friendly enemies across the valley, the University of Pittsburgh, to prepare himself for the study of law. Vernon Saurman has left school and is working for the Standard Underground Cable Co. Ken Wayne is still in Seneca Falls, N. Y., but we are hoping he will return to college later. Leo Page will be back for the second semester.

Carnegie Tech started the football season with a rush by winning their first game against Toledo University by a large score. The team lost quite a few good men of last year, but others have taken their places and the outlook is not at all depressing. Kristof is representing II K A on the Varsity, playing left end. Last year he made his letter at tackle, but was shifted to end because of his speed this year.

Several dances and smokers were held during the rushing season, and indications at this time are that we shall get our share of promising men from the new material in school. We have a full house at present, but some of the Alumni are expected to leave, and there will be plenty of room for the pledges.

JOSEPH F. CHRISTOFF, M. S.

BETA-TAU

University of Michigan

We are glad to announce to the fraternity at large that we have moved into our new \$50,000.00 fraternity house. This house

is located upon the highest spot in Ann Arbor and overlooks five miles of natural boulevard as well as the city itself. It is next to the University Arboretum which insures to us this natural scenery. It is located in a district in which some of the leading and oldest fraternities are now locating. It is one-half mile from the campus and is ideally built for a fraternity house. The house at present will accommodate approximately thirty-seven men. This beautiful structure is built of straw colored brick and is beautifully finished and decorated inside. The living-room is finished in mahogany, the halls in oak and the rooms on the second floor in white. The entire house is amply provided with closet room as well as running water and other conveniences. During the past summer under the direction of Horace Glasgow (house manager) and members of the alumni the dining-room and kitchen have been moved to the basement and a beautiful winding stairs leading to the former have been put in. We are pleased to have with us this year, Harold McClure of Beta-Alpha Chapter who is taking a Literary course here, and H. G. Wood of Alpha-Tau who is entering Law.

Michigan is growing steadily and the increase in the number of students, which made our new building program necessary, has advanced over last year and at present is believed to have passed the 12,000 mark. At present eleven new structures are under the process of construction on our campus under the new building plans. Among other things we are proud of the new "YOST" Field House, which is nearing completion. When finished it will be the largest and finest of its kind in the country. It will be large enough to seat about 12,000 persons and will cover a normal sized football field.

Major William T. Carpenter of Omega Chapter is now on the Michigan Campus and is preparing to take charge of the University unit of the R. O. T. C. He will relieve Major Arthur the present commander about the first of the year.

Julius B. Glasgow and Edward T. Ramsdell were elected to membership in Phi Beta Kappa, honorary literary fraternity, at the close of last semester. Beta-Tau having led the General Fraternities on this campus in scholarship last year finds herself trailing the leaders of this year only one and one-third percent in the scholastic standings.

The officers for the first semester of 1923-24 are: Herbert P. Bostick, S. M. C.; Irwin E. Stegmeir, I. M. C.; D. Maynard Phelps, Th. C.; Donald J. Reese, S. C.; Robert A. Manchester, II. M. S.; and Lyman J. Glasgow, M. C.

Looking forward to a most successful and prosperous year, Beta-Tau extend Greetings and Best wishes to all Sister chapters.

In campus activities Beta-Chi will really be one of the best represented groups this coming year. The chapter boasts of having business managers of three of the publications and editor-in-chief of the fourth. George Dworshak is president of the Western Conference Editorial Association, official organization of Big Ten newspaper editors.

One of the star performers of the grid this year will most likely be Fred Just. Although only a sophomore, he is making an excellent bid for right end and will probably appear in that role during a number of games.

Other II K A's who will hold important posts are James Ronan, member of the governing board of the Minnesota Union, Herbert Kielkopf, Sylvester Rose, art staff, the annual and the monthly magazine; Edward Stauffacher, business manager, Arabs, engineer's dramatic society.

Harold Gilbert, elected S. M. C. last spring, has announced that he will be unable to serve in that capacity this fall and James Ronan, I. M. C., has been chosen as his successor.

William Tannewitz, a University of Wisconsin II K A is now a member of the public speaking faculty here. He is assisting with the other alumni in the Twin Cities, in rushing and is a frequent entertainer at the piano.

Brother Talley, Emory University graduate, is now a St. Paul business man and a member of the Twin City alumni association.

It is the wish of becoming one of the "strong links in a strong chain" that Beta-Chi organizes its program for the second year of its existence.

BETA-UPSILON

University of Colorado

Beta-Upsilon by winning a delayed championship game won

the Fraternity Baseball Championship of the University for 1923. We were presented with a permanent cup and a traveling cup. Jerry Martin, a Varsity pitcher, pitched a fine game. Prospects for a Fraternity Basketball Championship look very promising also, with such men as Sharpe, Kingsley, Brandon, Patten, and Markham for candidates. Most of these men will be out for the Varsity team also. We have three men, Carter, Pexton, and Sharpe on the Varsity Football Squad and all are looking good. Prospects for pledge Kingsley landing the center position of the Frosh team look favorable.

Frank Lenon, a letter man on the boxing team, has returned to school.

Jimmy Gregg will not attend the University this year but will work on the Moffat Tunnel.

We are also represented in the college publications. Brother Markham was appointed manager of the University's humor magazine, the **Dodo**.

ALUMNUS ALPHA-EPSILON

New York City

Activity in New York has been marking time pending the opening of the new Club House on November 5th.

Several new features have been added to the original plans. Three small dining rooms are now available for club luncheons and one restaurant will be set aside for members with women guests if the demand is big enough to warrant it.

Surburban lockers will be placed in the locker room. Thus a member not living in the building who wants to take a shower or dress for the evening can enjoy all the advantages of a room without the attaching cost.

Robert Kinsella, the National Squash Champion, has been hired to supervise the squash courts in the building. He will give instruction and will sell athletic equipment. In fact he will be in charge of the athletic facilities of the building. This is indeed a feather in our cap for there is not a better qualified man in the country and many larger clubs would like his services.

This building should be Pi Kappa Alpha Headquarters in New York. We want every Pi Kap to visit us. And we also want a big membership, both resident and non-resident. There is no initiation fee and the dues are nominal. Resident members \$20, \$10 if you have been out of college three years or less: non-resident, \$10 a year. Dues may be paid in two installments. Ask J. H. Johnston, 185 Madison Ave., New York City, for an application card.

J. HAROLD JOHNSTON, *Secretary*.

ALUMNUS ALPHA-KAPPA

Pittsburgh, Pa.

The Alumnus Alpha-Kappa held their first meeting last Thursday night after a layoff during the summer months. A good turnout of members was at hand. Several new plans were laid

for the year, the most important being the discussion and planning of the Annual Thanksgiving Banquet.

This banquet is a yearly affair, and is the largest of its kind in the Pittsburgh District, partly because it preceeds the Annual football classic between Pennsylvania State College and the University of Pittsburgh.

Brother J. L. Packard, Beta-Alfa, was elected to head the Banquet Committee with Brother J. E. Chick, Beta-Sigma and Brother Ashe, Beta-Sigma, as Assistants. The Committee state that from the enthusiasm shown this promises to be the largest gathering of Pi Kap's this fall.

The Beta-Sigma Chapter at Carnegie Inst. of Technology are giving the Alumnus Pi's a dance on October 27th. All Alumnus Pi's being cordially welcome to attend.

W. T. MANTELL, *Secretary.*

ALUMNUS ALPHA-NU

St. Louis, Mo.

This is a fortunate and yet an unfortunate time for a chronicler of the doings of St. Louis Pi K. A's—there is big news, but it's too good to keep back here among the chapter letters, and we have to offer it for "up front" position and scream about it in advertising display. Naturally the reference is to the selection of Hotel Chase, St. Louis, for the 1924 convention and the tentative selection of April 22 to 25 for the dates, Easter being April 20.

Selection of the hotel and dates was coincident with a very pleasant visit from Brother Smythe, Grand Treasurer. The Convention Committee of which K. G. Coffman of Alpha-Omega, is chairman, and of which President Ben Cornwell (Alpha-Kappa) is an ex-officio member, escorted our smiling guest about town and was unanimous in its choice of the hotel, which also had the approval of Brother Smythe.

The news was announced locally at a dinner meeting of Alumnus Alpha-Nu and Beta-Lambda, the Washington University chapter, at the Marquette Hotel that evening, at which the Grand Treasurer delivered a stirring oration on our fraternity.

The chapter minute book contains some unparliamentary but none the less interesting records for our August meeting—an autographed register of all those who attended the "best girl" party that took place of an ordinary monthly meeting. This was held at Lake Hill Park, out in the country with chicken and beefsteak following a swim. Wives, sweethearts and best girls surely brightened the party. The preceding month we had had

a similar, but much less lively stag party at the same place. There's no getting around the fact that variety keeps an alumnus chapter going.

New members since the last writing include: Dale Billman, Beta-Eta; Rev. Arthur Weldon Henderson, Rho; Lester W. Knickmeyer, Beta-Lambda; Archie L. Lee, Alpha-Alpha; Hiram Lloyd, Jr., Alpha-Nu; Craig Munter, Beta-Lambda; George A. Noxon, Beta-Eta; John H. Smith, Beta-Lambda; Natt Taylor Wagner, Beta; John F. Wilkinson, Beta-Omicron; Norvell D. Wood, Beta-Lambda.

James W. Pugh, Alpha-Kappa, who visits us from time to time, recently married a St. Louis girl and settled in Chicago.

William D. Adams, Pi, first president of this chapter, visited us in September, with a very interesting new device to prevent tobacco smoke from burning the tongue.

Chaplain Frank P. MacKenzie, Alpha-Chi, flying parson at Scott Field, the army's chief lighter-than-air station, near here, was another welcome September visitor. He has been promoted to a captaincy.

Percy Ballard, Alpha-Nu, astonished the crowd the same month by showing up at meeting with a handsome mustachio, a promise to come often and an announcement of his impending marriage.

ALPHA-OMICRON

Southwestern University

The first meeting of Alpha-Omicron Chapter was called to order with the following Brothers answering the roll call:

C. D. Acker, Jacksonville, Tex.
 A. C. Douthitt, Henrietta, Tex.

 D. W. Forrester, Belton, Tex.
 W. V. Holloway, Waco, Tex.
 W. R. Mood, Georgetown, Tex.
 A. E. Nichols, Belton, Tex.
 W. R. Tull, Waco, Tex.
 Tass D. Waterston, Georgetown, Tex.
 W. F. Foster, China Springs, Tex.
 S. F. Foster, China Springs, Tex.
 J. R. McDaniel, San Antonio, Tex.
 Rupert Gregory, Corpus Christi, Tex.

During the summer days just preceding the opening of the fall term our home was given a thorough cleaning preparatory to

the rushing season this fall. With the improvements made last year and the ones now being made we have a very nice home.

The increased enrollment of students, about 25 per cent, has furnished some very fine material for the Fraternities at large, and Alpha-Omicron is out for the best of them. Since the Faculty has seen fit to place the matter of Fraternity Government in the hands of the Pan-Hellenic Council the length of the rushing season has been changed from three months to six weeks. The Pan-Hellenic government seems more satisfactory in that all the Fraternities seem more willing to abide by the regulations.

Football season is now in full sway and Alpha-Omicron is well represented by Gregory and Waterston, who are showing up beautifully in the back field. Nor is Pi Kappa Alpha lacking in representation in the other Campus activities. Douthitt, Acker, Nichols, and Holloway are members of the Varsity Band. W. F. Foster is Editor-in-Chief of the **Southwester**, the College Yearbook. A. C. Douthitt is now serving as President of the Pan-Hellenic Council. Alpha-Omicron has been favored with frequent visits from various Alumni. We are especially indebted to Brothers C. W. Pepper and P. M. Stevenson for some valuable assistance this year.

Alpha-Omicron extends best wishes to her Sister Chapters for success in all the undertakings during the year.

He lost home and furniture. Mother Camper lost everything that she has taken years to collect, and her home. But, as was to be expected, she is still the same cheerful, plucky little Mother. EXCHANGES

Are fraternities exercising sufficient care in the selection of new members?

To present the question seems to require some temerity. Yet this is a live topic in the Greek-letter world and one that is receiving considerable attention, from various viewpoints, in the fraternity press. It is not the intention or the province of this article to consider the question with the eyes of Pi Kappa Alpha alone. Rather, it is intended to summarize the idea of writers in the publications of numerous organizations.

One cannot help but gather the idea from this miscellany of thoughts that the fraternities are not being critical enough in their self-perpetuation. Immediately the counter-suggestion occurs: We cannot afford to go too far in exercising caution in pledging; if we do we will be charged with snobbishness, and we will lose the gains of recent years in democratizing fraternities.

Indeed, there seems to be the problem. The fraternity world must find some "open sesame" to a store of good judgment to be pro-rated among those on recruiting duty. In other words, members of active chapters, and especially the upper classmen, must go slower, think harder in bidding freshmen and must cultivate ability to read character. In that cultivation and in the exercise of that ability there is, perhaps, a field for the older and more worldly wise men of the alumni.

Character judgment; by that is meant the faculty for telling if a freshman is a fellow who will turn out to be the same sort of man as his prospective brothers, whether he has underlying kindred interests, staunch principles, an agreeable disposition, the lasting qualities of a friend. Too often, commentators in the Greek press seem to imply, a chapter is satisfied with a man proposed for

pledging if he was a good football man at high school when it happens the chapter just then has a deep interest in the game of pigskin, or something of the sort.

In short, considering a freshman, consider whether he has qualities of lasting brotherhood, whether he will be, as one great fraternity aptly expresses a basic wish of all our organizations, "Once a Beta, always a Beta."

Parents can help in this fraternity problem. Howard Bement of the Hill School, in an address before the Interfraternity Conference, made this suggestion: "Educate the parents in matters germane to the fraternity and permit the parents to educate the fraternities in matters germane to the guidance of youth," meaning that parents can help if given a full knowledge of the aims and ideals of our societies. Speaking of the power of fraternity men over the newcomers in chapters, he said:

"Was there ever an influence greater? The most plastic material in all God's world comes fresh to the fraternity's hand to be molded as the fraternity will. The average freshman neophyte is the most impressionable creature of the animal kingdom. He is truly simian, ape-like, in his terrible eagerness to conform, to be like the norm, to follow his elders, 'to belong' in every sense of the word. No Philistine ever protested himself before Dagon more adjectly than the freshman, in spirit, bows down to the admired upperclassman."

A danger, he pointed out, was in the feeding of "studious freshman into the fraternity hopper, to be ground out at the end of the course intellectually flabby—determined to do as little work as will just satisfy the requirements and bound to have as much fun as will be permitted."

He advocated the initiation of more studious men, as the type which brings to social intercourse its greatest asset. "The modern American collegian," he said, "is the worst converser in the world on subjects of serious import. He can pour out a Niagara of half-baked opin-

ion on college athletes and college politics, but he is mute when really stimulating discussion begins."

He made a comparison between American collegians and Oxonians as to conversational ability, to the distinct disadvantage of the home product. Another danger of our fraternity life, he suggested, was a tendency here and there for houses to ape metropolitan clubs in their appointments and "atmosphere." A charge he left was:

"It becomes the first duty of the fraternities to undertake some earnest soul-searching; to inquire into their real reason for being; to discover anew their real mission as appanages of the college, and to ask in humble spirit how well or how ill they are fulfilling their mission. The particular college fraternity that meets most promptly and most fully this self-inquisition will most safely weather the present storm of reconstruction.* * * * College men are the pick of the nation; fraternity men are the pick of the colleges."

Two chapter letters in two fraternity magazines of late attracted attention. The first is a good example of how a chapter letter ought to be written; indeed, it is an unusually good example, for so very, very many communications of this sort in publications of all the fraternities consist of such dreary drivel. This one tells news in plain language without trimmings of bunk and gush. It represented the Dartmouth College chapter of Phi Kappa Psi in *The Shield*. Read it.

"The chapter takes pleasure in announcing two new pledges taken into the bonds April 25th, Richard Warren Lamb, Hinsdale, Ill., and Reginald Whittle Hanson, Quincy, Mass., both members of the freshman class.

"The chapter plans to hold a feed at Moose Cabin May 29th. Each year the boys get together for a final big time, usually indulging in one of Prof. Grigg's famous meals at one of the Outing Club cabins.

"Bob Stone has been at the house for over a week, talking over the plans for an addition which will be made to the chapter house. The new section when completed will increase the size of the house twofold, and will have a new living room almost 30 by 40 feet. Four study rooms will be added, and further accommodations for sleeping quarters

will be made. The colonial design of the main section will be maintained in the new part. If plans go through and financial matters are settled, work will begin in June with the idea of completing the new part by September.

"The annual freshman-sophomore picture fight was staged the week-end of May 5th, and for the first time in three years the freshmen succeeded in taking their picture almost unmolested. Wallace and Hurd, secretary and treasurer of the first-year men, and Carpenter and Leavitt, president and treasurer of the sophomore class, took an active part in the organization of the struggle.

Sturtevant is a member of the 1924 prom committee, whose work terminates with the end of spring affair May 12th. Gallup has been appointed managing editor of the **Bema**, and Spaulding chosen sporting editor of the **Dartmouth**. Borden and Kenney have been elected to Cabin and Trail from the freshman Outing Club competition.

"The College administration has announced a raise in the tuition fee from \$250 to \$300, effective in 1924. Scholarships will, however, be raised to offset the change in the entrance fee. Increased costs of upkeep and running expenses are given as the reason for the tuition increase.

"Although initiating for Oregon, Alpha, the Chapter takes pleasure in bringing into the secrets of the Fraternity Frank Roy Rutter, professor of foreign commerce in Tuck School.

"Commencement Day comes June 19th. This will be a good opportunity for the alumni to see the plans for the annex to the house.

"CHAUNCEY J. SPAULDING."

And now for the horrible example. Fortunately, it is a burlesque, but some of the real letters are nearly as bad. It appeared in *The Garnet and White* of Alpha Chi Rho as follows:

"As the spring term draws to a close, the brothers of Ipi-con can report with pride that this is truly our banner year. Moving into our new home at the opening of college, we felt ready to face anything. We at present are renting the house,, but we hope to buy it by September, 1926, judging from the rate of progress of our building association. The house is in an ideal location, situated only two miles from the campus, thus making our group exclusive, if nothing else. The exterior is a quaint representation of ancient architecture, which is at once homelike and unique. The interior of our home has been furnished and decorated by contributions from the homes of the various brothers. This arrangement has afforded a very varied effect, for we have Turkish rugs, English armchairs, colonial fixtures, French curtains and German beer steins.

"Ipi-con chapter wound up its rushing season in bang-up shape, netting eleven freshmen, of whom five were the cream of the class. The rest were not so hot, but judging from the poor material in the class of 1926, etc., etc., we consider ourselves fortunate. Of these eleven new brothers, we regret to say, nine left college by force of circumstances,

at mid-years. With our reduced personnel, however, the remaining Brothers have been able to become all the more intimate each with the other. It's an ill wind—

"Our position in campus activities is enviable. Brother Hoopengabel was captain of the tiddle-de-winks team, which astonished the collegiate world by wresting the intercollegiate crown from the mighty offensive of the Upstate Female Seminary warriors, by a nose. Hoopy Hoopengabel was primarily responsible for this victory by scoring the deciding point over his adversary, the big Upstate right tiddle, in a furious encounter.

Brothers Hood, Roberts, Feltcher, Schmidt and Hennessy were out for the football team during the entire season and remained out until the end. Brother Kendall was a candidate for president of the freshman class, but he was defeated in the election because a Zeta-Fi counted the ballots.

"Ipicoon Chapter has also assumed the leadership in dramatics. Brother Gimlet Yellen, our budding thespian, tried out for every part in this year's musical show, and as a reward for his persistence, he was awarded the position of assistant carpenter. Brother Gukem was reaping the laurels of business managership when he unaccountably left college and town the day after the performance. The club is now \$500 in the hole and Brother Gukem is nowhere to be found.

"Despite Ipicoon chapter's leadership in school activities and scholarship the brothers still find time for the social side of college life. Our annual fall house party was a rousing success. It was given over the week-end of the Rugby game. Sad to relate, we lost the game, 68 to 0. It was, however, fortunate that Tim Brakem, our big tackle, had recovered in time to play, for if he hadn't Rugby might have beaten us by a much greater score.

"Nothing daunted by the defeat of the afternoon, the jolly girls and brothers staged a most wonderful house dance in the evening. There were four girls and twenty-eight men, thus assuring the former ample entertainment.

"Around mid-nite, our president averted an impending breach of brotherly relations by an act of admirable tact and strategy. One brother claimed that another had been too solicitous to his girl and was about to strike him over the head with a piano lamp, when our beloved president prevented the disaster by knocking the belligerent brother cold. Thus he preserved brotherly equanimity—a quality of which the members of our chapter are singularly proud.

"Yes, we repeat, this is certainly a banner year for dear old Ipicoon chapter.

PHILIP C. HOOPENGABEL.

Let's let the girls have the last word. Remarks some one in *The Trident* of Delta Delta Delta: "A little less nocturnal gasoline and a little more midnight oil and some of our chapters might pull out of a scholastic cellar." But they didn't mean us.
