

What's Up With Pike Chapters?

Perhaps Jim Wright (Epsilon Phi — Central Arkansas) tells it all in the photograph at right.

Rising above him is a symbol of the new generation. Pikes everywhere are shouldering greater responsibility for humanity through their chapter community service programs.

He expresses the contented, optimistic lifestyle returning to today's fraternity system.

His T-shirt reflects the college generation's single most unifying element — pop music, their one lasting cultural identity. As always, Pike chapters love to party. But they're doing it more creatively and frugally today.

Jim Wright's warm Easter scene is symbolic of many Pi Kappa Alpha activities. To give you a fresh look at IKA, consider what is up with Pike chapters and the fraternity system in general.

The renewed interest in fraternities is being written off by some as a nostalgic fad. True, corny talk of brotherhood, sophisticated rush plans and a never-ending stream of the amber liquids strikes a familiar, responsive chord. Such nostalgic trends began to re-emerge about two years ago as the student rebellion era cooled. Last spring's *Rainbow* of Delta Tau Delta reported, "The idea of 'just plain having a good time' is no longer looked upon as irrelevant. A meaningful dialogue now means convincing the girl in the next seat at the bar to go to the party on Saturday night."

"And now it appears that the tide has turned," said a 1974 issue of *Beta Theta Pi Magazine*. "Student unrest has subsided and the advantages of fraternity living are again apparent."

Though relieving, those reports have an inherent danger which lies in the fact that once again we are being tied to the old established order and to a frivolous, complacent campus scene," identified a recent issue of *The Record* of Sigma Alpha Epsilon. Indeed, today's college student is substantially different from his counterpart of the fifties and so is today's fraternity.

"Fraternities, which fell on hard times during the social activism of the 1960's, are enjoying a resurgence on many campuses," says a *New York Times* article. "Like the students, though, the organizations are different from those of a decade ago."

Community Service

Community service projects were scattered two decades ago and often amounted to community disservice as patrons waited for the unstuffing of telephone booths. In 1975, nearly all Pike chapters are engaged in worthwhile, inventive service projects.

Beta (Davidson) and Tau (North Carolina) chapters reflect their concern for world-wide hunger by participating in Fast for Hunger and the YMCA Starvation programs respectively. Pike chapters have raised about \$300,000 for the

Muscular Dystrophy Association of America over the past three years and expect to add another hundred grand this year. Alpha Alpha (Duke) chapter helped institute a day care center for the city of Durham, North Carolina. Several chapters are cleaning up after themselves and others by participating in the Miller Brewing Company Reclamation Contest. Gamma Nu (Iowa) and Delta Zeta (Memphis State) won their contests and a color TV (the latter beating out Theta chapter — Southwestern at Memphis).

If current affiliation trends continue, Pi Kappa Alpha will show a slight increase in both pledgings and initiations, the first time that has happened in eight years.

Through April 30, both areas were above totals through the same period last year. On May 1, 3,954 pledgings had been recorded compared to 3,601 on the same day last year. A total of 3,908 pledgings occurred last year.

May 1 initiations total was 2,464 compared to 2,270 last year. By July 1, 1974, IKA had initiated 2,907 people. It may be the first year above the 3,000 initiation mark for IKA in a long while.

*67-68 statistics were last increase in both categories in one year.

**Projected 1974-75 totals (4,261 pledgings, 3,101 initiations).

PERSPECTIVE

Year of Cautious Optimism

by Pat Halloran
Executive Director

As the 1974-75 academic year ends, one must describe it as one of cautious optimism. Optimistic in that the widely publicized renewed popularity in fraternities has in fact affected IKA's membership. Increases in both pledgings and initiations are noted this year for the first time in eight years. However, the sustaining power of the apparent increases is questionable.

The added problem of economic disarray follows the most recent era of anti-fraternity criticism throughout the country. The present crisis must have an impact on the college student whose funds are being spent on more carefully determined priorities. Although the Fraternity offers many worthwhile experiences, the stigma of the "social club" is an increasing deterrent to the frugally-minded student.

The cautiousness with which we enter into the 1975-76 year will depend upon the general economy of the nation and the attitudes of our members who are in a position to reinforce the positive benefits of fraternity membership such as leadership development and social maturing. These must be our selling points as we try to sustain our membership increases through the challenges of the inflation-recession-image problems.

The time is right to launch two all-out efforts, one in alumni programming and one called Project Bicentennial. I am pleased to announce the hiring of Ed Pease, 1973 Powers' Award winner, as a full-time Director of Alumni Affairs. In his area, the Fraternity has extended its relationship with Lendman, a job placement firm; IKA has contracted a seven-day Acapulco travel package for alumni in January; the current insurance package is to be continued, not as competition to brothers in the business, but as a group plan benefit open to all members as a service of IKA.

Our great movement began in 1776 with the founding of Phi Beta Kappa. Pi Kappa Alpha has set forth to recognize and celebrate the concurrent anniversaries of our country and the fraternity system. Many activities will be introduced involving both alumni and undergraduates and will culminate with the 1976 IKA Bicentennial Celebration Convention to be held in Memphis.

Leadership Committee Affirms CDP Value

Re-endorsing the Chapter Development Program (CDP), the Supreme Council Leadership Committee recently set forth several recommendations that would make the role of leadership development in Pi Kappa Alpha a "planned part of our activities and a planned part of our budget."

The committee, headed by Vice President Stan Love, also consists of Undergraduate Vice President David Pointer, alumni Dr. William O'Zee and Dr. Robin Widgery and Director of Chapter Services Bill Kingston. Brother Widgery created the CDP, an evaluation method of pin-pointing chapter strengths and weaknesses followed up with a leadership workshop to anecdote problem areas.

Extended CDP publicity and financing methods were also suggested by the committee as well as an abridged version for selected chapters.

Other leadership development recommendations included training of chapter presidents to their fullest potential through evaluation, manuals,

brochures, conferences and a biennial leadership academy; development of regional presidents' and chapter advisors' leadership capabilities; leadership seminar before conventions; multi-media leadership presentations; bibliography on leadership publications; and, improved leadership training for Memorial Headquarters staff personnel.

The Committee solicits other ideas. Send them to Stan Love, in care of the Memorial Headquarters.

Chapters Endorse CDP

Zeta Alpha (General Motors Institute) and Theta Beta (Montevallo) chapters heartily endorsed the Chapter Development Program following their phase four workshop sessions recently.

"As to the question several brothers always bring up, 'What is National doing for us?' this program seems to be the answer," wrote David Matthews of Theta Beta. "The money we invested into this program has proven to be one of the greatest investments ever made by this chapter."

"Improvement has been on the upswing for quite some time now since that horrifying weekend when our chapter was notified by the CDP Committee that we were below the IKA norm in several areas," Matthews added. "The delay in correcting many of the previous problems we found was due to the fact that we simply were unaware of them. The CDP made us aware."

"One Sunday evening," wrote Harold Verrell of Zeta Alpha, "our total membership spent five hours in a session with Dr. Robin Widgery analyzing our CDP results and our problems. This was the first time the whole group ever sat down to talk about our problems in a rational and logical manner."

Leadership Consultant Dr. Keith Kennedy added theatrics to his Delta Regional Conference presentation.

What's Up With Pike Chapters?

Other spotlighted service projects include Delta Chi's (Nebraska at Omaha) \$20,000 dance marathon, Epsilon Tau's (Eastern New Mexico) support for local youth programs and Zeta Phi's (Missouri at St. Louis) \$10,000 Pike Bike Race project.

Some general chapter programs herald the coming of a unique, do-your-thing fraternity era.

Two hundred people attended Zeta (Tennessee) chapter's Founders' Day banquet last March and heard IKA Chaplain Father Henry N. F. Minich. Theta pioneered a coffee-house atmosphere around the Southwestern campus. Nu (Wofford) and Alpha Iota (Millsaps) held alumni weekends featuring golf, tennis and softball in addition to more informal banquet gatherings.

Alpha Omega (Kansas State) viewed a slide show and heard a first-hand account of the Mount Lenin climbing disaster. Delta Theta successfully staged the Miss Arkansas State University contest stepping in after three years of failure by other sponsors. Delta Nu (Wayne State) earns about 40 percent of its budget by selling bagels on campus (nearly 80 dozen per day).

Delta Xi (Indiana), Beta Phi (Purdue) and six Indiana University fraternities and sororities pooled resources and held a combined spring formal on the *Belle of Louisville*. Epsilon Gamma sponsored a massive fun raising carnival at Texas Tech and Eta Delta (MIT) was selected to be in a multi-media slide show in conjunction with Boston's Bicentennial celebration. Beta Eta (Illinois) boasts having the president of the nation's largest IFC (54 fraternities) and Eta Psi (Texas Wesleyan) had more members in a university production of *SUGAR*, based on the screenplay *Some Like It Hot*.

Athletics

Pi Kappa Alpha had an impressive year in intramural athletics with possibly more chapters than ever winning campus honors.

Omicron (Richmond), Alpha Delta (Georgia Tech), Epsilon Beta (Valparaiso), Epsilon Eta (Houston) and Eta Zeta (Middle Tennessee) already won all-University IM trophies and many other chapters are expected to do the same. Other impressive championships were won in major IM sports by Beta (Davidson), Alpha Phi (Iowa State), Alpha Chi (Syracuse), Zeta Gamma (Eastern Illinois), Zeta Omicron (California State at Northridge), Zeta Pi (South Florida), Zeta Tau (Eastern Kentucky State), Zeta Phi (Missouri at St. Louis), Eta Phi (FTU), Eta Omega (Pembroke) and Theta Alpha (North Alabama) among others.

What's up with Pike chapters? Their activities tell the story. And, importantly, what's up with our chapters is renewed interest in education through extracurricular involvement. Even scholarship is back as witnessed by Alpha Kappa (Missouri-Rolla) which sports the highest fraternity grade point average on campus (2.98) and our University of Oregon colony which has a combined gpa of 3.425!

2,000 Attend Regionals

Some 2,000 undergraduates and alumni attended 15 regional conferences last spring under the new IKA structure adopted at the 1974 Vail Convention. The total is about twice as many as the total who attended regional conferences under the old setup when regions spanned considerably more territory than today.

All 15 regions held leadership development sessions in addition to business sessions, social activities and some nuts-and-bolts management seminars. The regions were ideally in a position to take the place of the off-convention year leadership academy and offer leadership lessons to vastly more undergraduates and alumni. However, leadership activities were sparsely attended, and only partially successful, while management seminars received greater support and encouragement by participants.

The conferences did, however, provide an improved forum for idea exchange as well as a more affordable and reachable location. Several suggestions were forwarded by the conferences and various others including the Leadership Committee which recommended the reinstitution of the off-year leadership academy with emphasis placed on management seminars during regionals. Conference business sessions were utilized to present regional president nominations to the Supreme Council. The Council appointed regional presidents during its May meeting.

Two Chapters Rechartered, Theta Epsilon Installed

by Jim Highberger
Director of Chapter Development

The rechartering of two Pi Kappa Alpha chapters and the installation of Theta Epsilon chapter bring IKA's total number of undergraduate chapters to 164.

It was a year of broad participation in chapter development as alumni and undergraduates from many different chapters pitched in. The productive spring saw a new chapter, Theta Epsilon, installed at Northeastern Oklahoma State University, and Xi chapter (South Carolina) and Delta Eta chapter (Delaware) rechartered.

Theta Epsilon

March 8, 1975, marked the chartering of Theta Epsilon chapter at Northeastern Oklahoma State University in Tahlequah, Oklahoma. This event provided an unusual addition to the history of Pi Kappa Alpha as, for the second time in his undergraduate career, Tom Thomas became a charter member of a new chapter. Brother Thomas, a founding member of Eta Upsilon chapter (University of Texas-Arlington), spearheaded the efforts to establish a Pi Kappa Alpha chapter at N.O.S.U. when, during the spring semester of 1973, he contacted six other students to discuss the organization of a new fraternity.

Presiding over the installation ceremonies was Stan Love, Supreme Council Vice President, assisted by Region Vice President Lloyd Samuels (Tulsa) and Director of Development Jim Highberger. Chapters performing the initiation and attending the weekend ceremonies were Gamma Upsilon (Tulsa), Gamma Chi (Oklahoma State) and Beta Omicron (Oklahoma).

Xi Chapter

Two years after its suspension, Xi chapter at the University of South Carolina was rechartered as was promised by the Supreme Council at the time of its closing. On April 5, 1975, 30 men were installed in ceremonies held in Columbia, South Carolina, under the direction of President Jerome V. Reel, Jr. and Carolinas Region President Joe Turner.

In the midst of the 1972-73 academic year the Supreme Council reluctantly voted to suspend the charter of Xi chapter. In so doing, the then Vice President Reel, recommended, "To consider a cause of action that will bring a new chapter of Xi into existence." Action to rebuild Xi commenced almost immediately after its suspension through the efforts of IKA alumni George Cox (Old Dominion), Mike Smith (Georgia Tech) and Durwood Barton (South Carolina), and undergraduate transfer Wayne Adams (Georgia Tech).

During the 1973-74 school term, the IKA's in the Columbia area contacted potential new members for a colony and organized alumni into what is now the successful Central South Carolina Alumni Association. On May 4, 1974, 16 men were

colonized at the University as the nucleus for the refounding of Xi.

The Pi Kappa Alpha colony at South Carolina distinguished itself during the current school year through its involvement in a variety of projects and activities and as a result the name of IKA again became a name to respect at U.S.C. Last winter the colony took the largest pledge class of the 16 fraternities on campus by obtaining 12 new associate members.

This spring's installation was an appropriate culmination of Xi's reorganization, with alumni and undergraduate representatives of 16 chapters participating in the event. On Friday evening, April 4, teams from Mu (Presbyterian), Nu (Wofford) and Eta Alpha (Clemson) initiated the 30 men including prominent Columbians Robert

Theta Epsilon chapter (Northeastern State).

Burnside and Pierre LaBorde. On Saturday, the new brothers were led through the installation Ritual by national President Reel.

Delta Eta Chapter

The History of IKA's Delta Eta chapter parallels that of Xi for the past few years. And, as in the case of Xi, when Delta Eta was suspended in the spring of 1972, the Supreme Council of the Fraternity voted to organize a new group of undergraduates at Delaware with whom the charter could be re-instated. In fulfillment of this promise national President Jerome V. Reel, Jr., in behalf of the Supreme Council, presided over ceremonies installing 28 men as Delta Eta chapter on April 18-19, 1975, in Newark, Delaware.

Work began in the summer of 1973 when Director of Development Tom Wilkinson (Weber State) and Chapter Consultant Gary Cousino (Ferris State) went to work with Chris Kuhn, Ervil Francis and several other Delta Eta alumni. By October 20, fourteen undergraduates were on hand to be colonized.

President Reel was assisted by Chapter Consultant Mike Risk (Iowa State) and Director of Development Jim Highberger in coordinating the installation activities. Chapter members from Beta Pi (Pennsylvania), Gamma Lambda (Lehigh) and Eta Beta (Seton Hall) performed the initiation

Pease Appointed Alumni Director

Midwest Region President Ed Pease moved his base of operation south this summer as he became Pi Kappa Alpha's first full-time director of alumni affairs. His regional presidency slot will be filled shortly.

Brother Pease is the 1973 Powers' Award recipient denoting the nation's most outstanding IKA undergraduate. The Delta Xi (Indiana) graduate recently finished his second year of law school at Indiana Indianapolis School of Law and was employed as a legal assistant to the Attorney General of Indiana. Pease, a Rhodes Scholar nominee, served two terms as SMC of Delta Xi, received the coveted Herman Wells Award designating the IU outstanding senior and was auspiciously active on campus.

He brings considerable alumni-related experience to the Memorial Headquarters position. The founder and former president of the Hoosier Pi Kappa Alpha Alumni Association which won the 1974 Nester Award as the most outstanding IKA alumni group also serves on the IKA Alumni Committee which redesigned the Fraternity's alumni program. Ed also worked on the IU Foundation Steering Committee and developed alumni relations with other associations.

Council Approves \$528,000 Budget

The Supreme Council approved a \$528,000 1975-76 fiscal year budget at its May meeting. It was a conservatively-based budget with a "hold-the-line" philosophy on new membership.

Some \$210,000 will be incoming through initiation fees next year added to \$80,000 in active dues and \$80,000 in pledge fees. Alumni will contribute \$30,000.

Leadership development was a priority program to be completely funded as programs are approved. Other expenditure areas include about \$100,000 funding of the Memorial Headquarters staff, another \$50,000 for staff travel including the chapter consultant program, \$35,000 for publication of the *Shield & Diamond* and \$20,000 for alumni programming.

In other business of the Council, two undergraduate Vice Presidents to the Supreme Council were appointed for next year.

Robert F. Fleischman, a senior at Missouri-Rolla (Alpha Kappa chapter), and Jerry W. Askew, a senior at North Carolina (Tau chapter) were the appointees. More information and pictures of them will be featured in the next issue.

The Council planned, in addition, a special August five-year planning retreat, outlined an accounts receivable policy that calls for a letter from President Jerry Reel to chapters owing more than \$1,000 for 90 days and resulting in the suspension of Eta Iota (Woodbury) chapter's charter due to almost complete inactivity by the chapter, the appointment of Dehaven Devlin to the Endowment Fund, Duane Christensen to the Alumni Committee and the appointment of Memphian Earl Triplett to the 1976 Bicentennial Celebration Convention Chairman, among other business.

ceremonies. Three of the original Delta Eta founders attended the installation: Walter Durham, James R. Reagan, Jr., and George V. Wood, III, as well as many other Delta Eta alumni including Chapter Advisor Brad Schlegel and House Corporation officers Ervil Francis, Chris Kuhn and Tom Rannels. Also in attendance was University of Delaware Associate Dean of Students Rick Sline (Drake), the chapter's Faculty Advisor, who emceed the installation banquet.

Oregon Colony

Twenty-two University of Oregon men were officially colonized in March with the expectation of a spring, 1976, rechartering of Gamma Pi chapter after three years' absence from the UO campus. Greg Minckley, colony president, is the only initiated member, a transfer from Delta Rho chapter (Linfield).

Optimistic Employment Outlook

There is light at the end of the tunnel according to Lendman Associates, a job placement firm with which Pi Kappa Alpha is associated. "The state of the job market has presented us with great challenge," says Steve Campbell, president. "In our opinion, good news is right around the corner."

Campbell says many of the top company clients who have been out of action for a while are already starting to hire again. Pi Kappa Alpha young alumni can meet these and other potential employers through the Lendman Career Weekend concept.

Several IKA's have found good jobs through Lendman's service. They simply sent their resumes to Stephen Campbell at Corporate Headquarters, P. O. Box 14027, Norfolk, Virginia 23518, and advised Lendman that they were members of Pi Kappa Alpha.

To qualify, applicants must have at least two years employment experience beyond college graduation, a graduate degree or a bachelor's degree in some specialized fields. A career weekend date will be arranged during which applicants will review top job availabilities with various companies and set up interviews with those of interest.

The following Career Weekend dates are set for June:

June 6-7	San Francisco
June 6-7	Chicago
June 11-12	New York
June 20-21	Dallas
June 26-27	Washington, D.C.

KAPPA (Transylvania - Jefferson Davis Hall, Transylvania Univ., Lexington, Ky. 40508) is well on its way to restoring its much needed alumni support. The chapter recently published its first newsletter in quite some time, including a schedule of chapter events. The members are striving to renew the chapter's once very strong alumni support.

CLU (Presbyterian - Box 252 Presbyterian College, Clinton, S.C. 29325) enjoyed another successful year which began with the pledging of 17 new members. A new mystic rock was added to the house in October and a new coat of paint was added to the entire house this spring. Led by SMC Pat McCambridge in the key toss, the brothers fared well in the annual Greek Games on campus. Following a tight budget, ThC Bill Hancock kept strict finances and enabled the chapter to close the year in the black for the first time in many years.

ALPHA PHI (Iowa State - 2112 Lincoln Way, Ames, Iowa 50010) brothers and nearby alumni are busy making preparations for Super Homecoming 1975 in hopes of seeing over 200 alumni return for the November event. This year has been another one of great success in intramurals the chapter won all-university football and swimming and all-fraternity volleyball and track. They enjoyed doing Varieties with Kappa Delta Sorority and placed second in Varieties with Gamma Phi Beta Sorority.

GAMMA ALPHA - GAMMA OMEGA

GAMMA ALPHA (Alabama - P.O. Drawer B-H, University, Ala. 35846) Brothers felt the influence and leadership of Resident Counselor Mark Kizzire were so great this year that at the chapter's recent Awards Banquet, Mark was given a plaque of appreciation and the Mark D. Kizzire Most Outstanding Active Award was established.

Colonel Harlan Sanders (Alpha Eta - Florida) had a barrel of fun at a recent Tulane homecoming on the Eta chapter Float. Needless to say, it won first place.

This award will remain in the chapter house, and the recipient's name will be added annually.

GAMMA BETA (Nebraska - 360 No. 33rd, Lincoln, Neb. 68503) has rented a house which has since been converted into a new chapter room. Alumnius John Zarbana is rejuvenating the house corporation and asks all interested alumni to contact him at 1024 South 91, Omaha, Neb. 68114 for additional information.

GAMMA DELTA (Arizona - 1525 E. Drachman, Tucson, Ariz. 85719) has had a banner year for 1974-75. Through expert financial budgeting, good rush efforts and proper house management, the chapter has paid off a large outstanding debt. With similar financial wizardry, the chapter expects soon to refurbish its living room, kitchen and dining room.

GAMMA THETA (Mississippi State - Drawer GT, State College, Miss. 39762) results of chapter elections for '75 fall semester: Johnny Sanburner, SMC; Oris Stennis, IMC; Craig Landrum, ThC; Mike Taylor, SC; Bill Patrick, Kitchen Manager; David Franks, S & D Correspondent. GAMMA KAPPA (Montana State - 1321 South 5th, Bozeman, Montana 59715) is quite involved on campus. The chapter boasts MSU skydivers, three Fags (sophomore men's service honorary), two student health committee members (one is chairman), two cultural affairs board members (including the director) and varsity athletes in track and tennis. Several freshmen are in Phi Eta Sigma scholastic honorary and one upperclassman is a member of Phi Kappa Phi general honorary society.

GAMMA NU (Iowa - 1032 North Dubuque, Iowa City, Iowa 52240) opened the year by sponsoring an exchange with eight other Greek organizations. The chapter also made the finals of the intramural football playoffs. In softball intramurals this spring they won the All-University Softball Championship and also finished first for the Social Intramural Award by taking more points in intramurals than any other social group.

GAMMA RHO (Northwestern - 566 Lincoln St., Evanston, Ill. 60201) has found a way hopefully to attract rushes to the chapter as well as attract campus publicity. They plan to invite several musicians to hold a "jam" at the house and also invite interested persons to come hear the mini-concert.
